**EXHIBIT 1
PATENT ASSIGNMENT AGREEMENT**

This Patent Assignment Agreement is made and entered into by and between Landis+Gyr Technology, Inc. of 30000 MILL CREEK AVENUE, SUITE 100, ALPHARETTA, GEORGIA 30022 ("Assignor"), and Itron, Inc. of 2111 N MOLTER ROAD, LIBERTY LAKE, WA 99019 and Resideo Technologies Inc. of 901 E. 6TH STREET, AUSTIN, TEXAS 78702 (collectively "Assignees"). Assignor and Assignees are referred to herein collectively as the "Parties" and individually as a "Party."

WHEREAS, pursuant to a Quitclaim Assignment Agreement by and between Assignor and Assignees, Assignor agreed to sell, assign, transfer, convey, contribute and deliver, and cause to be assigned, transferred, conveyed, contributed and delivered, to Assignees all of Assignor's rights, titles, and interests in and to certain Patents as set forth on Schedule A.

WHEREAS, capitalized terms used in this Patent Assignment Agreement and not otherwise defined herein will have the meanings set forth in the Quitclaim Assignment Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound, the Parties hereto agree as follows:

1. Effective as of the Effective Date, and by its execution of hereof, Assignor hereby irrevocably assigns, transfers, conveys, contributes and delivers all of Assignor's rights, titles, and interests, whatever they may be, to Assignees equally, in and to (a) the Patents; (b) any and all income, royalties, or payments due, accrued, or payable as of the Effective Date or thereafter, and any and all proceeds, claims, causes of action, and rights to enforce, sue for, and recover or collect from past, existing, and future infringement, misappropriation, or other violation or impairment of any of the Patents; and (c) any and all rights of Assignor to obtain reissues, re-examinations, continuations, continuations-in-part, divisions, extensions, or other counterpart Patents and legal protections arising solely from the Patents that are or may be secured in any relevant jurisdiction anywhere in the world, including, but not limited to, the United States, its territories and possessions, now or hereinafter in effect.

2. The Assignees hereby request and the Assignor hereby grants to the Assignees and their legal representatives all rights necessary to record this Patent Assignment Agreement, or such other documentation as may be appropriate, with the United States Patent and Trademark Office and any other intellectual property office or government agency in any jurisdiction throughout the world.

3. This Patent Assignment Agreement is intended to evidence the consummation of the assignment, transfer, conveyance, contribution and delivery by Assignor of the Patents pursuant to the Quitclaim Assignment Agreement. Assignor and Assignees each hereby

acknowledges and agrees that nothing in this Patent Assignment Agreement, express or implied, is intended to or shall be construed to modify, expand, or limit in any way the terms of the Quitclaim Assignment Agreement or constitute a waiver or release by any Party of any rights, liabilities, duties, or obligations granted to or imposed upon any of them by the terms of the Quitclaim Assignment Agreement. In the event of any conflict or inconsistency between the terms of the Quitclaim Assignment Agreement and the terms hereof, the terms of the Quitclaim Assignment Agreement shall govern.

4. This Patent Assignment Agreement may be executed in one or more counterparts, each of which shall be deemed an original as against the Party that signed it and all of which shall together constitute one and the same agreement, and shall become effective when one or more counterparts have been signed by each of the Parties and delivered to the other Parties, it being understood that all Parties need not sign the same counterpart. This Patent Assignment Agreement may be executed and delivered by electronic means, including electronic mail (email), in pdf file format, by DocuSign electronic signature platform, or other like electronic means. By using e-signatures to sign this Patent Assignment Agreement, the Parties acknowledge that execution in this manner creates a binding contract between the Parties.

5. This Patent Assignment Agreement shall be binding upon and shall inure to the benefit of the Parties and their respective successors and assigns.

In witness whereof, the Parties have caused their duly authorized representatives to execute this Agreement as of the date hereof.
