## ASSIGNMENT BY INVENTOR

Attorney Docket No. 3442.013

Pierre Michel NOTHMAN, (Inventor) has invented **ACTIVE SUCTION CUP**, (the Invention), as described in:

U.S. Patent Application No. **17,533883**, filed **23<sup>rd</sup> November 2021** (the Application).

**GEKO UNIQUE SUPPORT SYSTEM S.L.** (Assignee), a **Spanish corporation** with a principal place of business at **C/ Bethencourt Alfonso 2 (piso 3 – Puerta central), SANTA CRUZ DE TENERIFE (ES) SPAIN 38002**, is desirous of acquiring the entire right, title, and interest in the Invention and the Application. Any reference in this assignment to the Assignee encompasses the successors, legal representatives, and assigns of the Assignee.

For good and sufficient consideration, the receipt of which is hereby acknowledged, Inventor hereby transfers to Assignee the entire right, title, and interest in the Inventions and the Application, and in all patents and patent applications covering the Invention or resulting from the Application, including all provisional, non-provisional, continuation, continuation-in-part, divisional, reissue, reexamination, foreign, and PCT applications, and any patents resulting from these applications, in the United States and in all foreign countries, including in particular the rights of priority originating from the Application.

Inventor hereby represents that, except for any rights that have arisen to Assignee under law or that have already been transferred to Assignee, Inventor has the right to convey the entire right, title, and interest in the Invention and the Application, and that no assignment, sale, agreement, or encumbrance has been made or will be made which would conflict with this assignment.

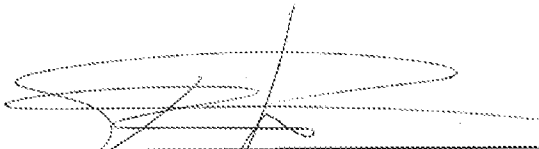

Inventor hereby authorizes the Director of the U.S. Patent and Trademark Office and the empowered officials of all other governments to issue all patents covering the Inventions or resulting from the Application, to the Assignee.

Inventor hereby agrees to carry out in good faith the intent and purpose of this assignment; to communicate to Assignee any facts relating to the Invention, the Application, and any patents and applications that cover the Invention or result from the Application; to testify in any legal proceeding when requested to do so; to execute all rightful oaths, assignments, powers of attorney and other papers; to sign all lawful papers, execute all necessary assignment papers to cause any patents resulting from the Application or covering the Invention to be issued to Assignee; and to generally do everything necessary or desirable to aid the Assignee in attaining, perfecting title in, and enforcing proper protection for the Invention, the Application and any patents and applications resulting from the Invention or the Application, in the United States and in all other countries, all without further consideration, but at the expense of the Assignee.

Inventor hereby grants to Assignee the right to sue for past, present and future infringement of any patents covering the Invention or resulting from the Application.

Inventor grants to Assignee and Assignee's attorneys the power to insert into this assignment any information necessary to comply with the rules of the United States Patent and Trademark Office for recordation of this Assignment.

The Inventor has executed this assignment as of the date(s) indicated below:

Signature:   
Pierre Michel NOTHMAN

Date: February 17th, 2022

**DECLARATION OF WITNESS**
