ASSIGNMENT

WHEREAS, XR Downhole LLC, a Texas limited liability corporation located at 1707 1/2 Post Oak Blvd. #655, Houston, Texas 77056 (hereinafter "Assignor"), is the owner of a certain new and useful invention(s) (hereinafter "Invention") and improvement(s) entitled "Polycrystalline Diamond Power Transmission Surfaces", as set forth in U.S. Application for Letters of Patent of the United States, already filed on May 29, 2020, as U.S. Application No. 16/888,079 ("Utility Application") and PCT International Application No. PCT/US20/35316, filed on May 29, 2020 ("PCT Application"), (collectively said "Filed Applications").

WHEREAS, Pi Tech Innovations LLC a limited liability corporation, organized under and pursuant to the laws of the state of Texas having its principal place of business at 1707 1/2 Post Oak Blvd. #655, Houston, Texas 77056 (hereinafter "Assignee"), is desirous of acquiring right, title and interest in and to said Filed Applications and in and to any Letters Patent to be obtained therefor and thereon (to the extent any such right, title, and interest have not been previously acquired).

NOW, THEREFORE, in consideration of One Dollar (\$1.00) and other good and sufficient consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor has sold, assigned, transferred and set over, and by these presents does sell, assign, transfer and set over unto Assignee, its successors, legal representatives and assigns, its entire right, title and interest in and to:

(a) said Utility Application: United States Non-Provisional Application No. 16/888,079, filed on May 29, 2020; titled "Polycrystalline Diamond Power Transmission Surfaces";

(b) said PCT Application: PCT International Application No. PCT/US20/35316, filed on May 29, 2020; titled "Polycrystalline Diamond Power Transmission Surfaces"; and

(c) any PCT National Phase Entry of said PCT Application, including all divisions, continuations, and substitutions thereof; and

(d) any and all United States and foreign patents which shall issue on any of the above-identified applications ((a) - (c)) including all reissues, reexaminations, renewals, divisions, continuations, and extensions thereof, for the United States, its territories and possessions and all foreign countries, including the right to file applications for Letters Patent on said above-identified applications ((a) - (c)) in the United States and any and all foreign countries and any other patent office, the same to be held and enjoyed by said Assignee, its assigns and successors, as fully and entirely as the same would have been held and enjoyed by Assignor, had this Assignment and sale not been made; and further, Assignor does sell, assign, transfer and set over unto Assignee, its successors, legal representatives and assigns, the right, authority, and/or permission to: claim priority to, or from, any or both of said Filed Applications (e.g., claim the benefit of the filing date under the Paris Convention) or any other application identified above in (a) - (c), file any of the applications identified above in (a) - (c) in any patent office (or equal) in the world or jurisdiction, be granted any patent (or similar rights) arising from, or issued on, any of the applications identified in (a) - (c), and/or to be granted any patent (or similar rights) identified in (a) - (c) above, in any patent office in the world or jurisdiction.

AND for the same consideration, Assignor hereby represents and warrants to Assignee, its successors, legal representatives and assigns, that, at the time of execution and delivery of these presents, except for any rights, titles and/or interests that have arisen to Assignee under law or that have already been transferred to Assignee, Assignor is a lawful owner of a right, title and interest in and to said Invention and application for Letters Patent above-mentioned, and that the same are unencumbered and that Assignor has good

and full-right and lawful authority to sell and convey the same in the manner herein set forth.

AND for the same consideration, Assignor hereby covenants and agrees to and with Assignee, its successors, legal representatives and assigns, that Assignor will sign all papers and documents, take all lawful oaths and do all acts necessary or required to be done for the procurement, maintenance, enforcement and defense of any Letters Patent and applications for Letters Patent for said above-identified applications and patents ((a) - (d)), without charge to Assignee, its successors, legal representatives and assigns, whenever counsel of Assignee, or counsel of its successors, legal representatives and assigns, shall advise: that any proceeding in connection with said above-identified applications and patents ((a) - (d)), or any proceeding in connection with any Letters Patent or applications for Letters Patent for said above-identified applications and patents ((a) - (d)) in any country, including but not limited to interference proceedings, is lawful and desirable; or, that any division or continuation of any application for Letters Patent, or any reissue, reexamination or extension of any Letters Patent, to be obtained thereon, is lawful and desirable.

AND Assignor hereby requests the Commissioner of Patent and Trademarks to issue (and any equivalent authority in the world in respect to any Patent identified above) said Letters Patent of the United States to Assignee, as Assignee of said above-identified applications and patents ((a) - (d)) and the Letters Patent to be issued thereon, for the use and benefit of Assignee, its successors, legal representatives and assigns.

AND Assignor hereby grants the following individuals the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office and any other Patent Office in foreign and other jurisdictions, for recordation of this document and:
