ASSIGNMENT OF INVENTION AND PATENT RIGHTS

WHEREAS Mindy Hixon of Bakersfield, California, hereinafter referred to as "Assignor," is the inventor of the invention described and set forth in the below identified application for United States Letters Patent:

Title of the Invention: Ultraviolet Air Irradiation System and Ultraviolet Air Irradiation Process (the "Invention")

Application Serial Number: 63/032324 (the "Patent Application")

Patent Application Filing Date: May 29, 2020

WHEREAS Stanley W. Ellis, an individual, having an address of 1400 Norris Road, Bakersfield, California, 93308, hereinafter referred to as "Assignee", is desirous of acquiring Assignor's interest in the Invention, in the Patent Application, and in any Letters Patent which may be granted for the Invention and/or on the Parent Application anywhere in the world;

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN: Be it known that, for the sum of \$10.00 and other good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has sold, assigned and transferred, and by these presents does sell, assign and transfer to Assignee, and to Assignee's successors and assigns, all of Assignor's right title and interest in and to the Invention, the Patent Application, on any applications claiming priority to the Patent Application including divisional applications, continuation applications, and continuation-in-part applications, and in and to any Letters Patent which may hereafter be granted on the same in the United States or anywhere else in the world, the said interest to be held and enjoyed by Assignee as fully and exclusively as it would have been held and enjoyed by Assignor had this Assignment and transfer not been made, to the full end and term of any Letters Patent which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation or extension thereof.

Assignor further agrees that Assignor will, without charge to Assignee, but at Assignee's expense, cooperate with Assignee in the prosecution of the Patent Application and any later applications which may be filed based upon the Invention and/or the Patent Application, and will execute, verify, acknowledge and delivery all such further papers, including applications for Letters Patent and for the reissue thereof, and instruments of assignment and transfer thereof, and will perform such other acts as Assignee lawfully may request, to obtain or maintain Letters Patent for the Invention and improvements thereof, and to vest title thereto in Assignee, or in Assignee's successors and assigns.

IN TESTIMONY WHEREOF, Assignor has signed his/her name on the date indicated.
