**ASSIGNMENT AND AGREEMENT**

Richard Chia-Tsing Tong of Seattle, Washington, John P. Cordell of Seattle, Washington, Robert V. Welland of Seattle, Washington, Samuel J. McKelvie of Seattle, and John H. Ludwig of Bellevue, Washington (collectively, the "Assignors") have invented a certain invention entitled "Method and System for Providing Artificial Intelligence Analytic (AIA) Services Using Operator Fingerprints and Cloud Data" (the "Invention"), as set forth in this United States Patent Application, serial number 15/852,346 filed on December 22, 2017 for Letters Patent of the United States (the "Application").

Surround.IO Corporation, a Delaware corporation with a principal place of business at 2101 4<sup>th</sup> Avenue, Suite 1950, Seattle, Washington 98121-2312, (the "Assignee") wants to acquire the entire right, title, and interest in and to the Invention and the Application;

Therefore, for the sum of one dollar and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignors, pursuant to this assignment and agreement (the "Assignment"), have sold, assigned, and transferred and hereby sell, assign, and transfer to Assignee and its successors and assigns the full and exclusive right, title, and interest in and to (1) the Invention and all embodiments, improvements, and modifications of it (collectively, the "Inventions"); (2) the Application and all other applications for Letters Patent of foreign countries (collectively, the "Foreign Applications") for the Invention or the Inventions; (3) all Letters Patent that may issue from the Application and the Foreign Applications in (respectively) the United States and foreign countries (collectively, the "Letters Patent"); (4) all divisional, continuation, and reissue applications or extensions (collectively, the "Continuing Applications") of the Application and the Foreign Applications and any Letters Patent of the United States and any foreign country that may issue from the Continuing Applications (collectively, the "Continuing Letters Patent"); (5) the right to claim for the Application, with respect to any of the Foreign Applications or any of the Continuing Applications, the full benefits and priority rights, including under the International Convention and any other international agreement to which the United States is a party or adheres; and (6) the right to sue and collect damages for past and present infringement of the Letters Patent and the Continuing Letters Patent.

The Assignee hereby acknowledges receipt of this full and exclusive right, title, and interest, and the full and exclusive right, title, and interest to be held and enjoyed by Assignee and its successors and assigns to the full end of the term or terms for which any and all such Letters Patent or Continuing Letters Patent may be granted as fully and entirely as would have been held by the Assignors had this Assignment not been made.

The Assignors hereby authorize and request the Commissioner of Patents and Trademarks to issue such Letters Patent of the United States to the Assignee as assignee of the entire interest, for the sole use and benefit of the Assignee and its successors and assigns.

Subject to reasonable compensation, reimbursement of expenses, or both, the Assignors shall (1) communicate to the Assignee and its successors and assigns and their representatives and agents all facts and information known or available to the Assignors with respect to the Inventions, the Application, the Foreign Applications, the Continuing Applications, any Letters Patent, or any Continuing Letters Patent, including evidence for interferences, reexaminations, reissues, oppositions, revocations, extensions, or infringement actions or other legal, judicial, or administrative proceedings (collectively, the "Proceedings"), whenever requested by the Assignee or its successors or assigns; (2) testify in person or by affidavit as required by the Assignee or its successors or assigns, in any such Proceeding in the United

States or a foreign country; (3) execute and deliver, upon request by the Assignee or its successors or assigns, any and all lawful papers related to the Inventions, the Application, the Foreign Applications, the Continuing Applications, the Letters Patent, or the Continuing Letters Patent, including but not limited to assignments, powers-of-attorney, oaths, affidavits, and declarations; and (4) provide all reasonable assistance to the Assignee and its successors and assigns in obtaining and enforcing proper title in and protection for the Inventions, the Application, the Foreign Applications, the Letters Patent, the Continuing Applications, or the Continuing Letters Patent under the intellectual property laws of all relevant forums.

Each Assignor hereby represents and warrants that the Assignor, to the Assignor's knowledge, has the full and unencumbered right to sell, assign, and transfer the interests sold, assigned, and transferred pursuant to this Assignment and that the Assignor has not executed and will not execute any document or instrument in conflict with this Assignment.

The Assignors hereby grant any officer or employee of the Assignee or its successors or assigns the power and authority to insert in this Assignment any further identification of the Application that may be necessary to ensure compliance with the rules of the United States Patent and Trademark Office for recordation of this Assignment.

The Assignors acknowledge that the attorneys and agents of the Assignee do not personally represent the Assignors or the Assignors' legal interests but instead represent the interests of the Assignee. As such, the attorneys and agents of the Assignee may not provide legal advice to the Assignors with respect to this Assignment. The Assignors acknowledge their right to seek independent legal counsel with respect to this Assignment.
