## ASSIGNMENT OF PATENT RIGHTS

This patent assignment (this “**Assignment**”) is entered into as of the date set forth below by and between Kevin Laws with a principal place of business at 380 Robinwood Ln, Hillsborough, California (“**Assignor**”), and Streeling Laboratories LLC, a Delaware limited liability company, having a registered address at Corporation Trust Center, 1209 Orange St., Wilmington DE 19801<sup>1</sup> (“**Assignee**”).

Whereas, the Assignor and Assignee have entered into a certain Patent Purchase Agreement dated February 15, 2022, under which, among other things, Assignor assigns to Assignee all right, title and interest in and to the Patents (as defined below).

For good and valuable consideration, the receipt of which is hereby acknowledged, Assignor, does hereby irrevocably sell, assign, transfer, and convey unto Assignee, or Assignee’s designees, all of Assignor’s right title and interest in and to all of the following (collectively, the “**Assigned Patent Rights**”):

- (a) all provisional patent applications, patent applications, and patents listed in the attached Attachment 1 (the “**Patents**”);
- (b) all provisional patent applications, patent applications, patents or other similar governmental grants or issuances worldwide (i) from which any of the Patents directly or indirectly claims priority and/or (ii) for which any of the Patents directly or indirectly forms a basis for priority;
- (c) any reissues, reexaminations, extensions, continuations, continuations in part, continuing prosecution applications, requests for continuing examinations, and divisions, worldwide, of any provisional patent application, patent application, patent or other governmental grant or issuance set forth in clauses (a) and/or (b);
- (d) foreign patents, patent applications, and counterparts relating to any item in the foregoing categories (a) through (c), including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances (clauses (a) through (d), collectively, the “**Assigned Patents**”);
- (e) any inventions, invention disclosures, discoveries and other items claimed or described in any Assigned Patents and all other rights arising out of such inventions, invention disclosures, discoveries and other items, worldwide, whether any patent applications have been filed or any patents have issued on such inventions, invention disclosures, and/or discoveries and whether or not claims related to any of the foregoing have been rejected, withdrawn, cancelled, abandoned or the like;
- (f) items in any of the foregoing in categories (a) through (e), whether or not expressly listed as Patents in the attached Attachment 1 and whether or not claims in any of the foregoing have been rejected, withdrawn, cancelled, or the like;

---

<sup>1</sup> If Buyer designates Buyer’s Designee to receive the assignment of rights, then this will be replaced with information for Buyer’s Designee.

(g) rights to all inventions, invention disclosures, and discoveries described in any item in the foregoing categories (a) through (f) and all other rights arising out of such inventions, invention disclosures, and discoveries;

(h) rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type related to any item in the foregoing categories (a) through (g), including, without limitation, under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement, or understanding;

(i) any causes of action (whether currently pending, filed or otherwise) and all other enforcement rights and rights to remedies under, on account of, or related to any of the Patents and/or any item in any of the foregoing categories (a) through (h), including, without limitation, all causes of action and other enforcement rights for (i) damages, (ii) injunctive relief, and (iii) other remedies of any kind for past, current and future infringement, misappropriation or violation of rights and all rights to sue for any of the foregoing;

(j) all rights to collect past and future royalties and other payments under, on account of, or related to any of the Assigned Patents and/or any item in the foregoing categories (e) through (i); and

(k) any and all other rights and interests worldwide, arising out of, in connection with or in relation to the Assigned Patents and/or any item in the foregoing categories (e) through (j).

Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Assigned Patent Rights in the name of Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.

In witness whereof, intending to be legally bound, the Parties have executed this Assignment as of the Assignment Date.
