ASSIGNMENT

WHEREAS, I, Danielle Robillard having a mailing address at 8 Indianola Ave., Akron, NY 14001 ("Assignor"), have invented certain new and useful improvements in a BEVERAGE CONTAINER WITH HANDLE AND METHOD OF MAKING SAME, for which a non-provisional U.S. patent application is being filed concurrently herewith (the "Application"); and

WHEREAS, Aakron Rule Corp., ("Assignee") a New York corporation having a place of business at 8 Indianola Ave., Akron, NY 14001, is desirous of acquiring all right, title and interest in and to the Application, the invention described therein, and any and all applications and patents claiming priority therefrom.

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00), and other good and valuable consideration to me in hand paid, the receipt and sufficiency of which is hereby acknowledged, I do hereby assign, sell, transfer, convey and set over to Assignee, free and clear of all liens, encumbrances and other restrictions or obligations, my entire right, title and interest in and to (i) the Application, (ii) all inventions described in the Application and all patent applications relating thereto which have been or shall be filed in any countries or regions designated in the Application, (iii) all applications claiming the benefit of the filing date or claiming priority, directly or indirectly, from any of the foregoing, including without limitation any and all regional applications, national applications, divisional applications, continuation applications, continuation-in-part applications, reissue applications, reexaminations and extensions, (iv) all rights, including without limitation all priority rights, under any international conventions, unions, agreements, acts and treaties, (v) all patents issuing or reissuing, directly or indirectly, from any of the foregoing, (vi) all other forms of protection that may be provided in any country for the Application, the invention described therein, or the disclosure therein, and (vii) all claims for damages, injunctive relief and all other remedies arising out of any infringement or violation of

any of the foregoing assigned rights, with the right to sue for past infringement and to collect and retain damages that may have accrued prior to the effective date of this Assignment, or which have accrued or may hereafter accrue, for Assignee's own use and benefit and for the use and benefit of Assignee's successors, assigns and other legal representatives (all of the foregoing hereafter referred to collectively as the "Subject Property").

AND I do hereby acknowledge and agree that Assignee, as the assignee of the entire right, title and interest thereto, shall have sole control over and sole and absolute discretion with respect to any decisions regarding the Subject Property, including without limitation with respect to any decisions regarding where to file patent applications and the prosecution and maintenance of any patent applications or patents.

AND I do hereby authorize and request that any patents issuing from any of the Subject Property be issued to Assignee, as the assignee of the entire right, title and interest thereto.

AND I do hereby agree, upon request of Assignee, to execute any and all documents that Assignee deems necessary or convenient to vest or record title in and to any of the Subject Property in Assignee, and to provide such other material, information or assistance related to the Subject Property as Assignee may deem necessary or convenient.

AND I do further understand, confirm and acknowledge that in executing this document I am transferring my entire interest in and to the Subject Property to Assignee, and that the attorney(s) appointed in the Application also represent Assignee and any co-inventor(s) identified in the Application. I consent to such multiple representation for the purpose of prosecuting any of the foregoing patent applications, and do hereby authorize the attorney(s) to take all future instructions from Assignee. I am unaware of any potential interest that I may have that differs from, or is adverse to, that of Assignee with respect to the prosecution of the foregoing patent applications, and I further acknowledge that, prior to executing this document, I did not seek or

obtain any legal advice from Assignee's attorney(s) with respect to this Assignment and that I have been informed of my right to seek independent counsel of my own choosing and at my personal expense.

IN WITNESS WHEREOF, I have executed this Assignment as of the 10th day of July, 2020.

Danielle Robillard
