**ASSIGNMENT OF PATENTS AGREEMENT**

This ASSIGNMENT OF PATENTS AGREEMENT (“**Assignment of Patents**”) is made and entered into as of March 15, 2021, by and between Future Holding B.V., a Netherlands corporation (“**Assignor**”), and Futurola Holding B.V., a Netherlands corporation (“**Assignee**”).

**WHEREAS**, Assignor is the owner of the Patents as set forth in that certain Purchase and Sale Agreement, dated as of the date first set forth above (“**Purchase Agreement**”);

**WHEREAS**, in connection with the execution of the Purchase Agreement, the Assignor has agreed to sell, assign, transfer, convey, and deliver to Assignee, among other things, all of its right, title, interest, benefit, and privilege in and to the Patents; and

**WHEREAS**, the Assignor desires to assign all of its right, title, and interest in and to the Patents to the Assignee and the Assignee desires to acquire the Patents.

**NOW, THEREFORE**, for good and valuable consideration set forth in the Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee hereby agree as follows:

1. **Definitions**. Capitalized terms used but not otherwise defined herein shall have the respective meanings attributed thereto in the Purchase Agreement.

2. **Assignment**. Assignor does hereby irrevocably sell, assign, and transfer to Assignee, its successors and assigns, all of Assignor’s right, title, and interest in and to the Patents in all countries throughout the world, all registrations and pending applications for the Patents, any renewals of the registrations for the Patents, and any associated models, as set forth on Schedule 1 (“**Assigned Patents**”) hereto, for the Assignee’s own use and enjoyment and for the use and enjoyment of Assignee’s successors, assigns, or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment of Patents had not been made, together with all causes of action for any and all previously occurring infringement of the rights being assigned and the right to receive and retain the proceeds relating to those infringements.

3. **Recordation**. Assignor hereby authorizes the Commissioner for Trademarks in the United States Patent and Trademark Office (the “**Commissioner**”), and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this Assignment of Patents upon request by Assignee. Assignor hereby authorizes and requests the Commissioner and the officials of the respective worldwide Patent Offices (including, but not limited to, WIPO and EPO) to issue to the Assignee, its successors, assigns and legal representatives, in accordance with this Assignment, any and all of the patent registrations resulting from applications to register the Assigned Patents, or otherwise derived therefrom to Assignee as assignee of the entire interest therein.

4. **Further Assurances**. Assignor authorizes and agrees that when requested, at Assignee’s sole cost and expense, Assignor shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns, and legal representatives, including the

execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be reasonably necessary to effect, evidence, or perfect the assignment of the Patents to Assignee, or any of Assignee's assignee or successor thereto.

5. **Power of Attorney.** If Assignor fails, is unavailable, or, despite Assignee's reasonable efforts, cannot be located to execute such documents, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents as Assignor's agents and attorneys-in-fact to act for and on Assignor's behalf solely to execute such documents or papers with the same legal force and effect as if executed by Assignor.
