SUPPLEMENTAL PATENT SECURITY AGREEMENT

SUPPLEMENTAL PATENT SECURITY AGREEMENT, dated as of March 14, 2022, made by each of the undersigned grantors (individually, a "Grantor", and, collectively, the "Grantors"), in favor of WELLS FARGO BANK, NATIONAL ASSOCIATION, a national banking association, in its capacity as Administrative Agent.

W I T N E S S E T H:

WHEREAS, the Grantors are party to that certain Security Agreement, dated as of July 2, 2018 (as amended, amended and restated, supplemented or otherwise modified from time to time, the "Security Agreement") in favor of the Administrative Agent pursuant to which the Grantors are required to execute and deliver this Supplemental Patent Security Agreement (this "Supplemental Patent Security Agreement");

NOW, THEREFORE, in consideration of the premises and to induce the Administrative Agent, for the benefit of the Lenders, to enter into the Credit Agreement, the Grantors hereby agree with the Administrative Agent as follows:

SECTION 1. Defined Terms. Unless otherwise defined herein, terms defined in the Security Agreement and used herein have the meaning given to them in the Security Agreement.

SECTION 2. Grant of Security Interest in Patent Collateral. As security for the Secured Obligations, each Grantor hereby pledges and grants to the Administrative Agent for the benefit of the Secured Parties a lien on and security interest in and to all of its right, title and interest in, to and under all the following Collateral of such Grantor:

(a) Patents of such Grantor, including those Patents applied for or registered with the United States Patent and Trademark Office listed on Schedule I attached hereto; and

(b) all Proceeds of any and all of the foregoing (collectively, the "Patent Collateral"; provided, "Patent Collateral" shall not include any Excluded Property).

As security for the Secured Obligations, each Grantor hereby pledges and grants to the Administrative Agent for the benefit of the Secured Parties a lien on and security interest in and to all of its right, title and interest in, to and under all the Patent Collateral of such Grantor.

SECTION 3. Security Agreement. The security interest granted pursuant to this Supplemental Patent Security Agreement is granted in conjunction with the security interest granted to the Administrative Agent pursuant to the Security Agreement and Grantors hereby acknowledge and affirm that the rights and remedies of the Administrative Agent with respect to the security interest in the Patents made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event that any provision of this Supplemental Patent Security Agreement is deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall control.

SECTION 4. Termination. Upon the occurrence of the Termination Date and termination of the Security Agreement, the Administrative Agent shall execute, acknowledge, and deliver to the Grantors an instrument in writing in recordable form releasing the collateral pledge, grant, assignment, lien and security interest in the Patents under this Supplemental Patent Security Agreement.

SECTION 5. Counterparts. This Supplemental Patent Security Agreement may be executed in any number of counterparts, all of which shall constitute one and the same instrument, and any party hereto may execute this Supplemental Patent Security Agreement by signing and delivering one or more counterparts. The words "execution," "signed," and words of like import in this Supplemental Patent Security Agreement shall be deemed to include electronic signatures or electronic records, each of which shall be of the same legal effect,

validity or enforceability as a manually executed signature or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any other similar state laws based on the Uniform Electronic Transactions Act.

SECTION 6. Governing Law. This Supplemental Patent Security Agreement and the transactions contemplated hereby, and all disputes between the parties under or relating to this Supplemental Patent Security Agreement or the facts or circumstances leading to its execution, whether in contract, tort or otherwise, shall be construed in accordance with and governed by the laws (including statutes of limitation) of the State of New York, without regard to conflicts of law principles that would require the application of the laws of another jurisdiction.
