PATENT ASSIGNMENT AGREEMENT

WHEREAS, by the unanimous written consent of the board of directors of Vericool, Inc., a Delaware corporation (“*Vericool*” or the “**Company**”), and with the consent of the requisite number of shareholders of the Company, on October __, 2021, the Company, in accordance with the assignment for benefit of creditors laws of the State of California, transferred ownership of all of its rights, title and interest in and to all of its assets to *VCool (Assignment for the Benefit of Creditors), LLC*, a California limited liability company (the “*Assignee*”), and in so doing has also designated Assignee to act as the assignee for the benefit of creditors of the Company (the “*General Assignment*”);

WHEREAS, pursuant to the terms of the General Assignment, all of the Company’s rights, title and interest in all of its assets have been assigned to the Assignee, including the Company’s patents and patent applications;

WHEREAS, the Company and Assignee desire to separately memorialize herein the transfer of the Company’s patents and patent applications and related rights to Assignee.

NOW, THEREFORE, BE IT KNOWN, pursuant to the General Assignment, the Company hereby conveys, assigns, transfers, delivers and sets over for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, unto said Assignee, its successors and assigns, (1) the entire worldwide right, title and interest in and to each and all Letters Patents in the United States and in all foreign countries including, without limitation corresponding Patent Cooperation Treaty patent applications and corresponding National patent applications and all inventions, improvements and discoveries disclosed in said Letters Patents and applications which were held by the Company immediately prior to the consummation of the General Assignment, including those set forth in **Schedule A** hereto, and in and to all substitutions, divisions, continuations, continuations-in-part, reexaminations, extensions, renewals and reissues (as applicable) thereof, including without limitation of generality, all rights of priority resulting from the filing of patent applications relating to any of the foregoing as well as any and all choses in action and any and all claims and demands, both at law and in equity, that Assignor has or may have for damages or profits accrued or to accrue on account of the infringement of any of said Letter Patents, patent applications, inventions, improvements and discoveries (or any provisional rights therein), the same to be held and enjoyed by Assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by the Company if the assignment set forth in this Patent Assignment had not been made; (2) the full and complete right to file patent applications in the name of the Company or its designee, at the Assignee’s, or its designee’s election, on the aforesaid inventions, improvements, discoveries and applications in all countries of the world; and (3) the entire right, title and interest in and to any Letter Patent which may issue thereon in the United States or in any country, and any renewals, revivals, reissues, reexaminations and extensions thereof, and any patents of confirmation, registration and importation of the same.

AND the Company hereby authorizes and requests the United States Patent and Trademarks Office to issue said Letter Patents in accordance with this Patent Assignment Agreement.

[Signature page follows]

IN WITNESS WHEREOF, the Company has caused this Patent Assignment Agreement to be signed by its duly authorized representative as of October __, 2021.
