PATENT ASSIGNMENT
Attorney Docket No. P ABL 102 USCIP3

ASSIGNMENT

I, DR. PETER RUPPERSBERG, of Blonay, Switzerland, have invented the inventions described in the following United States and International Patent Applications:

- United States Patent Application Serial No. 15/548,671 entitled Systems, Devices, Components and Methods for Detecting the Locations of Sources of Cardiac Rhythm Disorders in a Patient's Heart” to Ruppertsberg filed on August 3, 2017, in the United States Patent and Trademark Office (Attorney Docket No. P ABL 102 USCIP3);
- International Patent Application PCT/IB2016/001273 entitled “Systems, Device, Components and Methods for Detecting the Locations of Sources of Cardiac Rhythm Disorders in a Patient's Heart” to Ruppertsberg filed on September 7, 2016, with the International Bureau at the World Intellectual Property Office (Attorney Docket No. P ABL 102 PCT CIP3);
- International Patent Application PCT/EP2015/001801 entitled “Elongated Medical Device Suitable for Intravascular Insertion and Method of Making an Elongated Medical Device Suitable for Intravascular Insertion” to Ruppertsberg filed on September 7, 2015, with the International Bureau at the World Intellectual Property Office (Attorney Docket No P ABL 102 PCT ORG), and
- International Patent Application PCT/EP2015/001803 entitled “Elongated Medical Device Suitable for Intravascular Insertion and Method of Making an Elongated Medical Device Suitable for Intravascular Insertion” to Ruppertsberg filed on September 7, 2015, with the International Bureau at the World Intellectual Property Office (Attorney Docket No. P ABL 104 PCT ORG).

The ASSIGNEE, Ablacon Inc., 1705 Washington Street, Calistoga, California, 94515, United States, desires to secure the entire right, title and interest therein.

For good and valuable consideration, the receipt and sufficiency of which I hereby acknowledge, I HEREBY ASSIGN TO THE ASSIGNEE:

The entire right, title and interest in said inventions in the above-identified United States patent application and in all design, utility, divisional, continuation, and continuation-in-part patent applications corresponding or relating thereto, or from which said United States patent application claims priority or any other benefits, or any reissues or extensions of Letters Patent or Patents granted thereon, and in all corresponding or related applications filed in countries foreign to the United States, and in all patents, copyrights, industrial design registrations, and/or trademark registrations issuing thereon in the United States and Foreign countries.

The right to file foreign patent, industrial design and trademark applications on said invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

I hereby authorize and request the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent, copyright, trademark or industrial design laws to issue patents, to issue any and all patents, copyrights, trademarks, and/or industrial design registrations on said invention to the Assignee as the owner of the entire interest, for the sole use and benefit of the said Assignee, its successors, assigns and legal representatives.

I hereby agree, without further consideration and without expense to any of me individually or as an employee or officer of any corporation or group, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of me to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all design, original, divisional, substitute, reissue, and other United States and foreign patent, trademark, copyright and/or industrial design registration applications on said invention, and all lawful documents requested by the Assignee to further the prosecution of any of such patent, trademark, copyright, and/or industrial design registration applications.

Cooperation to the best of my ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement proceedings involving said invention.

This assignment and agreement shall be binding upon my heirs and legal representatives.

I hereby grant the firm of Woods Patent Law, P.A. of St. Paul, Minnesota 55127 USA the power to insert in this assignment any further identifying information, including the application serial number and filing date of any of the patent applications identified above, which may be necessary or desirable to comply with the rules of the United States Patent and Trademark Office for recordation of this document therewith.

Executed at Blonay, this 5th day of August, 2017.
