ASSIGNMENT

WHEREAS, Shengmin Mei, Gabriel Gonzales, Alexander Chu and Richard Thomas Childs, hereinafter called the "Assignors", have made the invention described in the United States patent application entitled "CLIP REMOVAL SYSTEMS AND METHODS" that has a U.S. Patent Application Serial Number of 63/020673 and was filed on 05/06/2020 (We hereby authorize the attorneys of Workman Nydegger to insert said serial number and filing date when known.)

WHEREAS, Evalve, Inc., a corporation organized and existing under the laws of Delaware, having a place of business at 3200 Lakeside Drive, Santa Clara, California 95054, hereinafter called the "Assignee", desires to acquire the entire right, title and interest in and to the invention and to the patent application identified above, and all patents, foreign and domestic, which may be obtained for said invention, as set forth below.

NOW, THEREFORE, in exchange for valuable and legally sufficient consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignors have sold, assigned and transferred, and by these presents do sell, assign and transfer to the Assignee, the entire right, title and interest for the United States and elsewhere in and to the invention and the patent application identified above, and any Letters Patents or patents that may issue for said invention in the United States and elsewhere; together with the entire right, title and interest in and to said invention and all patent applications, patents, utility models and designs therefore in all countries foreign to the United States, including the full right to claim for any such application all benefits and priority rights under any applicable convention or law; together with the entire right, title and interest in and to all continuations, continuation-in-part, divisions, renewals and extensions of any of the patent applications, patents, utility models and designs defined above; to have and to hold for sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents.

The Assignors hereby covenant and agree, for both the Assignors and the Assignors' legal representatives, that Assignors have the full right to convey the interest assigned by this Assignment; and that the Assignors will assist the Assignee in the prosecution of the patent applications identified above, in the making and prosecution of any other applications that the Assignee may elect to make covering the invention identified above, in vesting in the Assignee like exclusive title in and to all such other patent applications and patents, in the prosecution of any interference which may arise involving said invention, or any such patent application or patent, and in assisting Assignee in enforcement of any rights arising out of this Assignment; and that the Assignors will execute and deliver to the Assignee any and all additional papers which may be requested by the Assignee to carry out the terms of this Agreement.

The Assignors hereby authorize and request the Commissioner of Patents and Trademarks, and such Patent Officials in foreign countries, to issue any and all patents to the Assignee in accordance with the terms of this Assignment.

IN TESTIMONY WHEREOF, the Assignors have executed this agreement.
