## ASSIGNMENT

For valuable consideration, the receipt and sufficiency of which is acknowledged, we, the below named inventors, (hereinafter referred to as Assignors), hereby assign to Winpak Ltd., a corporation of Canada, having a place of business at 100 Saulteaux Crescent, Winnipeg, MB R3J 3T3, Canada, and its successors and assigns (collectively hereinafter called "the Assignee"), the entire right, title, and interest throughout the world in the inventions and improvements which are disclosed in or the subject of an application for United States Patent signed by Assignors, entitled:

### CONTAINER FOR FOODSTUFF STORAGE AND DISPENSING

for which Assignors filed an application of United States Letters Patent on **February 19, 2021**, assigned Application Serial No. **17/180,236** (hereinafter the "Application").

This assignment includes: (i) the Application; (ii) continuation, continuation-in-part, divisional, reissue, and other United States applications which claim priority to the Application; (iii) all foreign and international applications which claim priority to the Application; (iv) any and all United States and foreign patents, utility models, inventors' certificates, and design registrations granted for any of the inventions or improvements disclosed in or the subject of the Application, and (v) the right to claim priority based on the filing date of the Application under the United States Code, the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other statutes or treaties of like purposes.

Assignors authorize the Assignee to apply in all countries in our names or in its own name for patents, utility models, design registrations, inventors' certificates and like rights of exclusion for any inventions or improvements which are disclosed in or the subject of the Application. Assignors agree for themselves and their respective heirs, legal representatives and assigns, without further compensation, to perform such lawful acts and to sign such further applications, assignments, preliminary statements and other lawful documents as the Assignee may reasonably request to effectuate fully this assignment.

Assignors covenant that they have the full right to convey the interests assigned by this Assignment, and that they have not executed and will not execute any agreement in conflict with this Assignment. Assignors further agree that they will, without further

consideration: (i) promptly disclose to Assignee's patent attorney any prior art known to Assignors during the pendency of the Application or other US or foreign related applications; (ii) testify in any legal or administrative proceeding and participate in any examiner interview relating to the inventions or improvements described in or subject of the Application; (iii) carry out in good faith the intent and purpose of the assignment; (iv) generally do everything possible which said Assignee, its successors, assigns or representatives, shall consider desirable for aiding in securing, maintaining, and enforcing the protection of any patent rights that should mature from the improvements and subject matter described in the Application.

This assignment includes, without prejudice to the generality of the foregoing, (1) the right to appoint counsel to appear before the United States Patent and Trademark Office or any foreign jurisdiction patent office, (2) the right to make all decisions regarding the prosecution and maintenance of the Application and any patent that should mature therefrom, (3) the right to have any patent(s) which issue from the Application issue in the name of Assignee; and (4) the right to bring all such proceedings as may be necessary for the recovery of damages or other forms of relief in respect of any and all infringements of any patent that should mature from the Application whether such infringement takes place before or after the date of this Assignment.
