PATENT ASSIGNMENT AGREEMENT

This patent assignment agreement is effective as of October 24, 2016 by and between **SPX Fitness, Inc.**, a California corporation ("**Assignor**"), and **Lagree Technologies, Inc.**, a California corporation ("**Assignee**").

Assignor is the owner of the patents and patent applications set forth in **Exhibit A** attached hereto and incorporated herewith, and all other rights appurtenant, including, but not limited to, the right to recover for past infringement, in the United States of America and all other countries and jurisdictions of the world, in and to the patents and any applications and registrations thereof (hereinafter collectively referred to as the "**Patent Rights**").

Assignee is desirous of acquiring all rights, title and interest in and to the Patent Rights worldwide.

Assignor is willing to assign to Assignee all rights, title and interest as Assignor may possess in and to the Patent Rights worldwide.

NOW, THEREFORE, in consideration of the sum of five dollars (\$5.00) and for other good and valuable consideration, receipt and sufficiency of which is hereby acknowledged, Assignor hereby (i) sells, assigns and transfers unto the Assignee, the entire right, title and interest in and to the Patent Rights worldwide and to any and all Letters Patent which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in any and all divisions, reissues, continuations, continuations-in-part, re-examinations, substitutions and renewals thereof, (ii) sells, assigns and transfers unto the Assignee, the full and exclusive right to the inventions described in the Patent Rights worldwide, (iii) sells, assigns and transfers the right to sue for past, present and future infringement of the Patent Rights and the right to collect and receive any damages, royalties, or settlement for such past, present and future infringements and any and all causes of action relating to any of the inventions or discoveries described in the Patent Rights, and (iv) covenants not to contest or challenge the validity or enforceability of the Patent Rights or the ownership of the Patent Rights by Assignee.

I hereby authorize and request the Patent Office Officials in the United States and its territorial possessions and any and all foreign countries to issue any and all of the Letters Patent, when granted, to the Assignee as the assignee of my entire right, title and interest in and to the same, for the sole use and behoof of the Assignee, Assignee's successors and assigns, to the full end of the term for which the Letters Patent may be granted, as fully and entirely as the same would have been held by me had this Assignment and sale not been made.

Further, I agree that I will communicate to the Assignee or Assignee's representatives any facts known to me respecting the invention, and testify in any legal proceedings, sign all lawful papers, execute all divisional, continuation, substitute, renewal and reissue applications, execute all necessary assignment papers to cause any and all of the Letters Patent to be issued to the Assignee, make all rightful oaths, and, generally do everything possible to aid the Assignee, Assignee's successors and assigns, to obtain and enforce proper protection for the inventions and

the Patent Rights in the United States and its territorial possessions and in any and all foreign countries.

This agreement constitutes the entire agreement of the parties with regard to the subject matter hereof. No modifications of or additions to this Agreement shall have effect unless in writing and properly executed by both parties, making specific reference to this agreement by date, parties, and subject matter. Any provision of this agreement that is invalid, illegal or unenforceable in any jurisdiction shall, as to that jurisdiction, be ineffective to the extent of such invalidity, illegality or unenforceability, without affecting in any way the remaining provisions of this agreement in such jurisdiction or rendering that or any other provision of this agreement invalid, illegal or unenforceable in any other jurisdiction.
