PATENT ASSIGNMENT

This Patent Assignment (the "Assignment") is made and effective as of this 26 day of MARCH, 2022 ("Effective date") by and between Ravindra Pratap Singh, (the "Assignor") and NFT IP Holdings LLC, (the "Assignee").

RECITALS

WHEREAS, the Assignors has invented certain new and useful inventions (the "Inventions") and (i) has registered or (ii) has applied for the registration of patents on the Inventions, which patent and applications for patents are listed in Schedule 1 attached hereto and made a part hereof (collectively, the "Patents" and "Patent Applications"); and

WHEREAS, Ravindra P. Singh and Daniel M. Lerner are the inventors of the inventions disclosed in Schedule 1; and

WHEREAS, it is the ASSIGNOR'S intention to assign and transfer to the ASSIGNEE all of its right, title, and interest in and to the Inventions and the Patents;

WHEREAS, ASSIGNEE desires to acquire all of the ASSIGNOR'S right, title and interest in and to the Inventions and the Patents in the United States and the Patents and certain patent rights and the like in the United States based thereon;

NOW, THEREFOR, in consideration of the sum of One Dollar (\$1.00) each and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the ASSIGNOR agrees to sell, assign, transfer, and set over to ASSIGNEE, and by these presents does hereby sell, assign, transfer, and set over to ASSIGNEE, its successors and assigns, its or his entire right, title and interest in, to and under:

- the Inventions in the United States and any and all countries outside of the United States;
- the Patents, and the sole right but not the obligation to prosecute, combine and/or abandon same, including the sole right but not the obligation to file, prosecute and/or abandon any and all present and future divisions, continuations and continuations-in-part, extensions, renewals and reissues of any of them;
- all forms of intellectual property protection, including without limitation, Letters Patents of the United States, patents, utility models, inventor's certificates and designs which may now or in the future be granted for any and all of the inventions in the United States and in any countries outside of the United States; and all reissues and extensions thereof, and the sole right but not the obligation to maintain and abandon any of them; and
- the right to sue for damages and other remedies and to otherwise enforce, and to keep any damage awards, royalties and other proceeds therefrom for itself, for any past, present and/or future infringement of any of the aforesaid Inventions, Letters Patents of the United States and patents in other countries;

AND the ASSIGNOR hereby authorize and request the Commissioner of Patents and Trademarks of the United States, and other appropriate government officials in countries outside of the United States to issue any and all Letters Patents of the United States, and any and all foreign patents to the ASSIGNEE, its successors, and assigns;

AND the ASSIGNOR, each for itself or himself, hereby represents, warrants, covenants and agrees that collectively or severally they have the full right to convey the entire interest purported herein to be assigned, and

that it or he has not executed, and will not execute, any agreement or other instrument in conflict herewith.

AND the ASSIGNOR, each for itself or himself, further represents, warrants, covenants and agrees that upon request it or he will, promptly upon request and without further compensation: communicate to the ASSIGNEE, its successors and assigns, any facts known to it or him respecting any or all of the Inventions and
