ASSIGNMENT

WHEREAS, I, **Christopher L. Richardson**, have invented certain new and useful systems, apparatus and methods relating to tackle slings (collectively, the “Inventions”), which are included in a United States regular patent application entitled “*Variable Length Tackle Sling*”, filed on March 25, 2019 and assigned Serial Number 16/363,993 (the “Application”); and

WHEREAS, **Richardson Capax, LLC**, a Texas limited liability company, having an address of 4175 W. Cardinal Drive, Beaumont, Texas 77705, is desirous of acquiring the entire right, title and interest in and to the aforesaid Inventions and Application, including the right to file additional patent applications in the United States and patent applications outside the United States (which shall include filings under the provisions of any convention or treaty);

NOW, THEREFORE, for and in consideration of the sum of Ten Dollars (\$10.00) and for other good and valuable consideration, the receipt of which is hereby acknowledged, I hereby sell, assign, transfer and set over to **Richardson Capax, LLC**, all right, title and interest in and to said Inventions throughout the world, and said Application, and any and all provisional and regular applications, divisions, continuations, continuations-in-part and other patent applications relating and/or claiming priority thereto and reissues thereof (collectively, the “Additional Applications”), and any and all patents of the United States and foreign countries which may be granted therefor, the same to be held and enjoyed by **Richardson Capax, LLC** for its own use and benefit, and for the use and benefit of its successors, assigns, or other legal representatives, to the end of the term or terms for which said patents of the United States or foreign countries are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by me if this assignment and sale had not been made.

And I hereby authorize and request the Commissioner of Patents and Trademarks and other authorities in foreign countries to issue any and all patents on said Inventions or resulting from said Application and Additional Applications to **Richardson Capax, LLC** as assignee of my entire interest, and hereby covenant that I have the full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith.

And I further hereby covenant and agree that I will, at any time, upon request, execute and deliver any and all papers that may be necessary or desirable to perfect the title of said Inventions, Application, Additional Applications and patents as may be granted therefor, to **Richardson Capax, LLC**, its successors, assigns, or other legal representatives and that if **Richardson Capax, LLC**, its successors, assigns or other legal representatives shall desire to secure a reissue of any such patents or file any provisional or regular applications, divisional, continuation, continuation-in-part applications or other patent applications relating to the Inventions, Application, Additional Applications or to file any disclaimers relating thereto, I will upon request, sign all papers, make all rightful oaths and do all lawful acts requisite for the filing of the same and the procuring thereof, without further compensation but at the expense of said assignee, its successors or other legal representatives.

And I do further covenant and agree that I will, at any time upon request, communicate to **Richardson Capax, LLC**, its successors, assigns or other legal representatives, such facts relating to said Inventions, Application, Additional Applications and patents or the file histories thereof as may be known to me, and testify as to the same in any IPR or other administrative proceeding or litigation when requested so to do, without further compensation but at the expense of said assignee, its successors, or other legal representatives.

EXECUTED THIS 11 day of April, 2022.

Christopher L. Richardson
