PATENT ASSIGNMENT

This PATENT ASSIGNMENT (this “Assignment”), dated as of July 1, 2020 (the “Effective Date”), is by and between DUPONT INDUSTRIAL BIOSCIENCES USA, LLC, a Delaware limited liability company, with address of 974 Centre Road, Wilmington, DE 19805 (“Assignor”) and NUTRITION & BIOSCIENCES USA 4, INC., a Delaware corporation, with address of 3490 Winton Place, Rochester, NY 14623 (“Assignee”), (each a “Party” and collectively, the “Parties”).

WHEREAS, Assignor owns the issued patents and patent applications set forth on Schedule A hereto (the foregoing, including all patents issuing from any patent applications, collectively, the “Assigned Patents”); and

WHEREAS, the Parties hereto agree that the Assignor contribute, transfer, assign and convey to the Assignee all of its right, title and interest in and to the Assigned Patents and that the Assignee accept such contribution, transfer, assignment and conveyance of such Assigned Patents;

NOW, THEREFORE, in consideration of the foregoing and the covenants and mutual agreements contained in this Assignment, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. **Conveyance.** Assignor hereby assigns, transfers and conveys to Assignee all of Assignor’s right, title and interest in and to the Assigned Patents, together with any and all (a) related continuations, continuations-in-part, divisionals, reissues, reexaminations, substitutions, statutory invention registrations, extensions, utility models, designs, inventor certificates, supplementary protection certificates, substantively identical patent specifications, abandoned equivalents and foreign equivalents thereof and (b) priority rights derived from any the Assigned Patents, or the items described in the foregoing subsection (a), by virtue of the International Convention for the Protection of Industrial Property (Paris Convention), Patent Cooperation Treaty and any other rights provided under applicable treaties, conventions or the laws of any jurisdiction, including rights in any and all provisional applications, together with all rights and remedies throughout the world (i) against past, present, and future infringement or other violation thereof, including the right to enforce the foregoing and to sue for and recover profits, other damages, injunctions and obtain other equitable relief for any and all infringements or violations thereof, whether past, present or future, (ii) to collect future royalties and other payments thereunder, (iii) to file, claim priority to, prosecute, maintain, amend, abandon, publish, keep confidential, assign, license or otherwise transfer the above-referenced patent applications and patents under the laws of any jurisdiction and/or international conventions or treaties and (iv) to prosecute, register, maintain and defend the above mentioned patent applications and patents before any public or private agency, office or registrar; for each of the foregoing clauses (i) through (iv), to the full end of the term or terms

for which said patents may be granted, as fully and entirely as the same would have been held and enjoyed by Assignor without this Assignment (the rights transferred under this Section 1 cumulatively, the "Assigned Rights").

2. Recordation; Further Assurances. Assignor and Assignee shall each take any and all additional actions as may be reasonably necessary to effect the transactions contemplated hereby, including Assignor's execution of individual assignment documentation for filing by Assignee with the applicable authorities of an applicable country. In the event an Assigned Patent registration or application is not properly recorded in the name of the Assignor as of the Effective Date, then, at the request of Assignee the Parties shall reasonably cooperate to make the necessary corrective filings and recordals of the documents. Assignor authorizes Assignee and its representatives to record and/or modify this Assignment as may be desirable or necessary to support the transfer from Assignor to Assignee, filing, prosecution, maintenance, defense, ownership, enforcement or collection of infringement damages in connection with Assigned Rights, and further authorizes the Assignee and its representatives to translate this Assignment into any language necessary or desirable for such purposes. The Assignor also requests that all patents included in the Assigned Rights be issued in the name of Assignee.

3. Disclaimer of Representations and Warranties. The Parties acknowledge and agree that, except as expressly set forth in this Assignment or another written agreement between the parties, all of the Assigned Patents and other assigned rights are to be provided as-is, where-is and on an "with all faults" basis and Assignee assumes all risk and liability arising from or relating to its use thereof and reliance thereon. EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT OR ANOTHER WRITTEN AGREEMENT BETWEEN THE PARTIES, EACH PARTY MAKES NO, AND HEREBY EXPRESSLY DISCLAIMS ALL, REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE ASSIGNED PATENTS AND THE OTHER ASSIGNED RIGHTS, AS TO ANY CONSENTS OR APPROVALS (INCLUDING APPROVALS FROM ANY GOVERNMENTAL ENTITIES) REQUIRED IN CONNECTION HEREWITH OR THEREWITH, AS TO THE VALUE OR FREEDOM FROM ANY SECURITY INTERESTS OF OR THE NON-INFRINGEMENT OR ABSENCE OF OTHER VIOLATION, VALIDITY OR ENFORCEABILITY OR ANY OTHER MATTER CONCERNING THE ASSIGNED PATENTS AND OTHER PATENTS AND PATENT APPLICATIONS INCLUDED IN THE ASSIGNED RIGHTS.

4. Successors and Assigns. The provisions of this Assignment and the obligations and rights hereunder shall be binding upon, inure to the benefit of and be enforceable by (and against) the Parties and their respective successors and permitted transferees and assigns.

5. Counterparts. This Assignment may be executed and delivered (including by facsimile or other means of electronic transmission, such as by electronic mail in "pdf" form) in more than one counterpart, all of which shall be considered one

and the same agreement, each of which when executed shall be deemed to be an original, and shall become effective when one or more such counterparts have been signed by each of the Parties and delivered to each of the Parties.

6. Title and Headings. Titles and headings to sections herein are inserted for the convenience of reference only and are not intended to be a part of or to affect the meaning or interpretation of this Assignment.

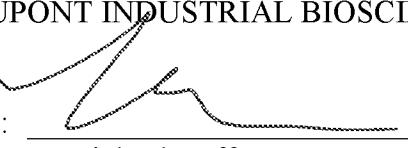

7. Governing Law. This Assignment and any dispute arising out of, in connection with or relating to this Assignment shall be governed by and construed in accordance with the Laws of the State of Delaware, without giving effect to the conflicts of laws principles thereof.
