**JOINT ADDENDUM TO DECEMBER 20, 2019,  
PATENT SALE AND ASSIGNMENT AGREEMENT**

The parties jointly clarify that, pursuant to the Patent Sale and Assignment Agreement ("Agreement"), Microchip Technology Inc. ("Microchip") assigned to Sonrai Memory Limited ("Sonrai") all of Microchip's right, title, and interest in and to the patents listed in Schedule 1 to the Agreement, including all right, title, and interest in all patents and patent applications necessary to give full force and effect to its assignment of patent rights to all patents listed in Schedule 1. This assignment includes, but is not necessarily limited to, United States Patent Number 7,086,583. In other words, as of December 20, 2019 (the effective date of the Agreement), Microchip assigned to Sonrai all patents and applications listed in Schedule 1 to the Agreement, as well as all patents and applications necessary to give full effect to the assignment of all patents and applications in Schedule 1, including United States Patent Number 7,086,583.

This Addendum does not serve to modify the effect of the Agreement, which effected assignment of United States Patent Number 7,086,583 through the operative language of Section 2.1 of the Agreement. Rather, Microchip and Sonrai submit this Addendum to avoid any doubt as to the pre-existing effect of the Agreement, and to facilitate recording of title of United States Patent Number 7,086,583 at the United States Patent and Trademark Office.

In witness whereof, the Parties have caused their duly authorized representatives to execute this Addendum.
