Pursuant to my obligation to **University of South Florida** (hereinafter referred to as "Assignee") having its principal place of business at:

and for other valuable and sufficient consideration, receipt whereof is hereby acknowledged, I, **Chad Dickey**, confirm my obligation to and hereby sell, assign and convey, unto Assignee, its successors and assigns, my entire right, title and interest -

(1) in and to inventions described in a patent application titled "THE HSP90 ACTIVATOR AHA1 DRIVES PRODUCTION OF PATHOLOGICAL TAU AGGREGATES" for which I filed United States Provisional Patent Application No. 62/463,424 on February 24, 2017 (Atty. (2) in and to the U.S. provisional patent application, in and to all other patent applications (including non-provisional, divisional, continuation, continuation-in-part, and reissue applications) based upon said inventions, and in and to the patent or patents to be granted thereon, to the full end of the term or terms for which said patent or patents may be granted;

(3) in and to all patent applications on said inventions now or hereafter filed in countries foreign to the United States of America, and in and to any and all patents granted on said applications to the full end of the terms for which said patents may be granted; and

(4) under the International Convention in respect to the U.S. provisional patent application and agree that any domestic patent applications and patent applications of any foreign countries which may be filed shall be filed in the name of the Assignee with a claim to priority based on the U.S. provisional patent application.

I hereby authorize the assignee or attorney of record to insert in the appropriate place in this document the application number and filing date of my application after execution of this Assignment.
