## ASSIGNMENT-STATEMENT

As the below named inventor, I hereby declare that:

1. This declaration is directed to United States Application No. 17/510,356 filed October 25, 2021;
2. The above-identified patent application was made or authorized by me; and
3. I believe that I am the original inventor or an original inventor of the claimed invention of the above-identified application.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

Additionally, whereas SNAPRAYS, LLC, DBA SNAPPPOWER, (Assignee), a limited liability company organized under the laws of the State of Utah and having a principal place of business at 426 East 1750 North, Unit D, Vineyard, UT 84057, desires to (a) secure the entire right, title and interest in the invention or inventions or (b) obtain written documentation that the entire right, title and interest in the invention or inventions has already been secured.

Therefore, in consideration of \$1.00 and other good and valuable consideration paid to me by Assignee, the receipt and sufficiency of which I hereby acknowledge, I HEREBY ASSIGN TO ASSIGNEE or confirm that I HAVE ALREADY ASSIGNED TO ASSIGNEE:

The entire right, title, and interest in the invention, in the above-identified United States patent application and in all divisions, continuations, and continuations-in-part thereof, all previously filed provisional applications for which the above-identified application seeks the benefit of an earlier filing date under 35 U.S.C. §119, all reissues or extensions of Letters Patent or Patents granted on the above-identified application, and in all corresponding international applications and applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

The right to file foreign patent applications on the invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.

I hereby authorize and request the United States Commissioner of Patents and Trademarks, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, to issue any and all patents on the invention to Assignee as the owner of the entire interest, for the sole use and benefit of Assignee, its successors, assigns, and legal representatives.

I hereby agree, without further consideration and without expense to me, to sign all lawful papers and to perform all other lawful acts which Assignee may request of me to make this Assignment fully effective, including, by way of example and not of limitation, the following:

Prompt execution of all original, divisional, continuation, substitute, reissue, and other United States and foreign patent applications on the invention, and all lawful documents requested by the Assignee to further the prosecution of any of such patent applications.

Cooperation to the best of my ability in the execution of all lawful documents, the production of evidence, nullification, reissue, extension, or infringement proceedings involving the invention.

This assignment and agreement shall be binding upon my heirs and legal representatives.
