ASSIGNMENT

WHEREAS, I, **Mads Høi Rasmussen of Odense S, Denmark** am a joint inventor on the patent entitled:

AUTOMATED PULLING OF CARTS; and**

which issued as U.S Patent No. 10,668,617 on June 2020 off of U.S. Patent Application 15/566,516 that was filed on October 13, 2017, which is a national stage entry of PCT/DK2016/050104, and which claims priority to Denmark Patent Application No. PA201570212 (collectively, "the patent and applications"); and

WHEREAS, **MOBILE INDUSTRIAL ROBOTS A/S** (hereinafter "ASSIGNEE"), having a usual place of business at **Emil Neckelmanns Vej 15F, 5220 Odense SOE, Denmark**, desires to acquire or confirm an interest in the patent and applications;

NOW, THEREFORE, to all whom it may concern be it known that, in consideration of agreements previously and duly entered into between the parties, and/or for other good and valuable consideration, the receipt of which is hereby acknowledged, I have sold, assigned, and transferred and/or do hereby sell, assign, and transfer unto said ASSIGNEE, its successors, assigns, and legal representatives, my entire right, title, and interest in and throughout the United States of America, its territories and all foreign countries, in and to the patent and applications any and all inventions described in the patent and applications, and/or any priority applications, including any right of priority thereto; and hereby confirm that my sale, assignment and transfer is and was effective at least as of the filing date of each of the patent and applications and/or priority application. My sale, assignment and transfer applies to the above-referenced patent and applications, and to any application that is based in whole or in part on the patent and applications, including any divisional, continuing, substitute, renewal, reissue, reexamination and other applications, for example that claim priority to the patent and applications. Also, this sale, assignment and transfer pertains to any and all other rights arising under or pursuant to any and all international agreements, treaties, or laws relating to the protection of industrial property, including all rights of priority under the International Convention for the Protection of Industrial Property, and in and to any such patent(s) as may issue thereon including any and all original and reissued patents which have been or shall be issued in the United States and foreign countries; said inventions, applications, and patent(s) to be held and enjoyed by ASSIGNEE for its own use and for its successors, assigns and legal representatives, to the full end of the term for which said patent(s) may be granted as fully and entirely as the same would have been held by me had this sale, assignment and transfer not been made;

AND, I hereby acknowledge that this Assignment, being of my entire right, title, and interest in and to the inventions, carries with it the right in ASSIGNEE, by attorneys and agents of ASSIGNEE selection, to apply for and receive any and all patent(s) for said inventions in its own name;

AND, I hereby further agree for myself and my executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the patent(s) to ASSIGNEE, its successors, assignees, and legal representatives, but at its expense and charges, including the execution of application for patents in foreign countries, the execution of substitution, reissue, divisional or continuation applications, and the giving of testimony, preliminary statements, or other statements in any interference or other proceeding in which the inventions or any applications or patents directed to the inventions may be involved by communicating to the ASSIGNEE all facts I know relating to the inventions and their history, and generally by doing everything possible which ASSIGNEE shall consider desirable for aiding in securing and maintaining proper patent protection for the inventions and for vesting title in the inventions and all applications for patent and all patents on the inventions in ASSIGNEE;

AND, I hereby appoint ASSIGNEE as my common agent for purposes of prosecuting international patent and applications and any national patent and applications for which such common agency is recognized;

AND, I hereby request the Commissioner for Patents of the United States Patent and Trademark Office to issue any and all patent(s) as shall be granted upon the patents and applications based thereon to ASSIGNEE, its successors, assigns, and legal representatives;
