1.1. ASSIGNED APPLICATIONS hereby means (a) any executed or filed application identified above (including any national or regional stage, identified or not, of an identified PCT application), or any draft application attached hereto, or any executed or filed application which discloses and claims an invention disclosed in such a draft application; (b) any application filed in the U.S. (provisional or nonprovisional), a foreign country, or under an international treaty (e.g., PCT), from which an application of (a) above directly or indirectly claims the benefit, under the Paris Convention or under U.S. (e.g., 35 USC 120 or 119(e)) or foreign law; and (c) any application, filed in the U.S., a foreign country, or under an international treaty (including PCT), which directly or indirectly claims the benefit, under the Paris Convention or under U.S. or foreign law, of an application of (a) or (b) above, including without limitation any continuation, division, or continuation-in-part applications, or a U.S. nonprovisional application (which may be a PCT application designating the U.S.) which claims 35 USC 119(e) benefit from a prior U.S. provisional application. The reference above to a PCT (international) application is intended to include the national or regional stage applications derived therefrom. Applications include both applications for patents and applications for other forms of protection for inventions, such as inventors' certificates.

1.2. ASSIGNED PATENTS hereby means any U.S. or foreign patent identified above, or which has issued or hereafter issues on an ASSIGNED APPLICATION, including any reissues, reexaminations, renewals or extensions of such patents; and any other form of protection for the inventions disclosed therein,

Nothing herein should be construed to imply an obligation on my part to satisfy expenses of prosecuting and maintaining any ASSIGNED APPLICATION or ASSIGNED PATENT.

If I am a Patent attorney, nothing herein shall be construed as requiring me to provide services as a patent attorney without reasonable compensation.

(If such persons are listed as inventors at the end of this Assignment form, then that constitutes a disclosure of identity.) This duty of disclosure is a continuing one and I will inform ASSIGNEE or its legal representatives of any relevant information which becomes known to me after the execution of this Assignment.

I will, upon ASSIGNEE's request, or that of or its legal representatives, provide information known to or readily ascertainable by me concerning the locations of such persons and the circumstances allegedly giving rise to their right, title or interest, such as their alleged inventive contributions.

I hereby covenant and warrant that (except as set forth in an attached written disclosure which is incorporated by reference herein) I have full right to convey the entire interest herein assigned, that I have not executed, and will not execute, any agreement in conflict therewith, and that I have and will comply with the duty of disclosure with respect to said application.
