ASSIGNMENT

WHEREAS, I, as a named inventor listed on the attached APPENDIX 1 (hereinafter referred to as "APPENDIX 1"), have invented certain new and useful improvements in the invention(s) listed on the same, for which an application for Letters Patent was executed on the priority date included thereon; and

WHEREAS, SONY GROUP CORPORATION (previously named Sony Corporation with the name change being effective on 1 April 2021) a corporation organized and existing under the laws of Japan, with offices at 1-7-1 Konan, Minato-ku, Tokyo 108-0075, Japan (hereinafter referred to as "ASSIGNEE"), is desirous of acquiring interests in my entire right, title and interest in and to said invention(s) and in and to any Letters Patent that may be granted therefore in the United States and its territorial possessions and in any and all foreign countries;

NOW, THEREFORE, for good and valuable consideration which is hereby acknowledged, I, by these presents do sell, assign and transfer indirectly unto said ASSIGNEE, my full and exclusive right to the said invention(s) in the United States and its territorial possessions and in all foreign countries (including the right to claim priority under the terms of the International Convention and other relevant International Treaties and Arrangements from the aforesaid application) and my entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to any and all divisions, reissues, continuations, substitutions and renewals thereof.

The priority application was filed in the name of Sony Mobile Communications Inc. by virtue of (i) my employment contract and/or a preexisting agreement or mutual understanding between myself and my employer and (ii) agreements made between my employer and Sony Mobile Communications Inc. pursuant to which my full and exclusive right to the said invention(s) in the United States and its territorial possessions and in all foreign countries (including the right to claim priority under the terms of the International Convention and other relevant International Treaties and Arrangements from the aforesaid application) and my entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to any and all divisions, reissues, continuations, substitutions and renewals thereof were sold, assigned and transferred to Sony Mobile Communications Inc. Sony Mobile Communications Inc. subsequently sold, assigned and transferred my full and exclusive right to the said invention(s) in the United States and its territorial possessions and in all foreign countries (including the right to claim priority under the terms of the International Convention and other relevant International Treaties and Arrangements from the aforesaid application) and my entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to any and all divisions, reissues, continuations, substitutions and renewals thereof to Sony Corporation on 1 January 2019. Sony Corporation changed its name on 1 April 2021 to Sony Group Corporation as evidenced by the extract from the Japanese Company Register included in the attached APPENDIX 2.

I hereby authorize and request the Patent Office Officials in the United States and its territorial possessions and any and all foreign countries to issue any and all of said Letters

Patent, when granted, to said ASSIGNEE as the assignee of my entire right, title and interest in and to the same, for the sole use and behoof of said ASSIGNEE, its successors and assigns, to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held by me had this Assignment and sale not been made.

Further, I agree that I will communicate to said ASSIGNEE or its representatives any facts known to me respecting said invention(s), and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, substitute, renewal and reissue applications, execute all necessary assignment papers to cause any and all of said Letters Patent to be issued to said ASSIGNEE, make all rightful oaths, and, generally do everything possible to aid said ASSIGNEE, its successors and assigns, to obtain and enforce proper protection for said invention(s) in the United States and its territorial possessions and in any and all foreign countries.

I hereby authorize and request the attorney(s) of record in this application to insert on the APPENDIX 1 any further identification, including the filing date and application number of the country in which an application for Letters Patent has been or will be subsequently filed, which may be necessary or desirable in order to comply with the rules of the patent office of that country for recordation of this document.
