### **MULTI-ZONE CHILLED BEAM SYSTEM AND METHOD WITH PUMP MODULE**

filed in the U.S. Patent and Trademark Office on **March 12, 2021**, and assigned **Application No. 63160629**, and edited and filed in the U.S. Patent and Trademark Office on **March 9, 2022**, and assigned **Application No. 17/690,805**, copies of which have been provided to me and I have reviewed; in, to and under the application(s) and any and all utility, design, provisional, non-provisional, continuation, divisional, continuation-in-part, continued prosecution, request-for-continued-examination, and PCT applications thereof; in, to, and under, my exclusive right to make and prosecute any and all applications for patents, reissues, renewals, and extensions thereof; in, to, and under any and all patents and Convention and Treaty rights of all kinds, in the United States of America and all other countries throughout the world, for all such subject matter, including the application for patent filed in **Canada** by Gowling WLG on **March 9, 2022**, identified by the same title and by Docket Nos: **MZCBPMCA1** and **H8326220CA**; in, to, and under any and all know-how and/or confidential, proprietary, and/or trade secret information relating to any such subject matter, applications, patents, and/or technology; in, to, and under the right to sue for present, past, and future infringement or misappropriation relating to any such subject matter, applications, patents, and/or technology; in, to, and under the right to enforce any rights and file any causes of action, in law and/or equity, relating to any such subject matter, applications, patents, and/or technology; and in, to, and under the right to all income, royalties, fees, damages, and payments now or hereafter due or payable in respect to any such subject matter, applications, patents, and/or technology.
