ASSIGNMENT

WHEREAS, We, the undersigned inventors of residence as listed, have invented certain new and useful improvements as below entitled, for which applications for United States Letters Patent are made, said applications having been designated as set forth in Schedule A below and filed on or about the date set forth below; and

WHEREAS, **STEREO APP LIMITED** (hereinafter referred to as "Assignee"), a corporation,

with an address of: 5TH Floor, 1 Dover Place
Ashford Commercial Quarter
Ashford, Kent
United Kingdom TN23 1FB

desires to acquire the entire right, title and interest in and to the inventions, and in and to said applications and any Letters Patent(s) that may issue thereon;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, we assign to Assignee, all right, title and interest in and to said inventions, including the right of priority for any previously filed provisional or regular patent applications related to the inventions described below, and in and to said applications and all patents which may be granted therefor, and all divisions, reissues, continuations, continuations-in-part and extensions thereof; and we authorize and request the Commissioner of Patents and Trademarks to issue all patents for said inventions, or patents resulting therefrom, insofar as our interest is concerned, to Assignee.

We also assign to Assignee, all right, title and interest in and to the inventions disclosed in said applications throughout the world, including the right to file applications and obtain patents, utility models, industrial models and designs for said inventions in its own name throughout the world, including the right of priority for any previously filed provisional or regular patent applications related to the inventions described below, including all rights to publish cautionary notices reserving ownership of said inventions and all rights to register said inventions in appropriate registries, together with all rights to sue for past, present, and future infringements or misappropriations of the inventions, and We further agree to execute any and all powers of attorney, applications, assignments, declarations, affidavits, and any other papers in connection therewith necessary to perfect such right, title and interest in Assignee. We warrant that, to the best of our knowledge, the rights and property conveyed are free and clear of any encumbrance.

We will communicate to Assignee any facts known to us respecting any improvements; and, at the expense of Assignee, We will testify in any legal proceedings, sign all lawful papers, execute all divisional, continuation, continuation-in-part, reissue and substitute applications, make lawful oaths and declarations, and generally do everything possible to vest title in Assignee and to aid Assignee to obtain and enforce proper protection for said inventions in all countries.

We agree not to subsequently challenge the validity or enforceability of any patents covering said inventions, whether administratively, through the courts, or otherwise.

This Assignment shall be binding on the parties' successors, assigns and legal representatives.

We hereby grant all practitioners with the firm of Baker & McKenzie LLP (Customer Number **23562**), the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

The undersigned further declares that all statements made herein of his/her/their own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful and false statements may jeopardize the validity of the applications or any patents issued thereon.
