ASSIGNMENT BY INVENTORS

This Assignment is by the following individuals (the "Assignors"):

- Sina Akhbari of San Jose, California
- Ching-hsun Wei of Taichung City, Taiwan
- Shao-Hsiang Lo of Taoyuan City, Taiwan
- Hao-Yen Tang of San Jose, California

The Assignors invented one or more certain inventions (the "Invention(s)") described in an application for Letters Patent of the United States titled "FORCE-MEASURING DEVICE ASSEMBLY FOR A PORTABLE ELECTRONIC APPARATUS, A PORTABLE ELECTRONIC APPARATUS, AND A METHOD OF MODIFYING A SPAN OF A SENSE REGION IN A FORCE-MEASURING DEVICE ASSEMBLY," filed on May 9, 2022 as U.S. Patent Application No. 17/739,946 (the "Application"). The Assignors authorize the Assignee, identified below, or its representatives to insert the application number and filing date of the Application when known.

UltraSense Systems, Inc., a corporation having its principal place of business at 2025 Gateway Place, Suite 156, San Jose, California 95110 (the "Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Applications, and in and to any patents (the "Patents") that may be granted for the Invention(s) in the United States and/or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignors acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Applications, and any Patents; any divisions, continuations, and continuations-in-part of the Applications and any other application claiming priority rights from the Applications; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Applications (collectively, the "Rights").

Assignors warrant that Assignors own the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this Assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee.

This Assignment may be executed in counterparts.
