**ASSIGNMENT OF THE UNITED STATES
AND PCT PATENT APPLICATIONS**

WHEREAS, I, James B. Paull, as "Assignor" have made certain new and useful inventions and improvements for which I filed: (1) an application for Letters Patent of the United States, identified as U.S. patent application serial number 17/188,647, filed on March 1, 2021, which application is entitled **ENCAPSULATED PHOTOVOLTAIC CELLS**; and (2) an international PCT application assigned international application number PCT/US2021/02068, with an international filing date of March 1, 2021, with the same title.

AND, WHEREAS, Stellaris Corporation, a corporation organized and existing under and by virtue of the laws of the State of Delaware, and having an office and place of business at 1 Tara Boulevard, Suite 200, Nashua, NH 03062, (hereinafter "Assignee"), is desirous of acquiring the entire right, title and interest in and to said inventions, improvements and application and in and to any patents obtained therefore on U.S. 17/188,647 as well as any patents obtained based upon PCT/US2021/02068;

NOW, THEREFORE, to all whom it may concern, be it known that for good and valuable consideration given by the Assignee, the receipt and sufficiency whereof is hereby acknowledged, I have sold, assigned, and transferred, and by these presents do sell, assign and transfer (the "Assignment") unto said Assignee, its successors or assigns, the entire right, title and interest for all countries in and to all inventions and improvements disclosed in the aforesaid applications, including all divisions, continuations, continuations-in-part, or renewals thereof, all Letters Patent which may be granted therefrom, and all reissues or extensions of such patents, and in and to any and all applications which have been or shall be filed under the Patent Cooperation Treaty, in any regional patent offices and in any foreign countries for Letters Patent on the said inventions and improvements, including an assignment of all rights under the provisions of the International Convention, and all Letters Patent of foreign countries which may be granted therefrom. I do hereby authorize and request the Commissioner of Patents and Trademarks to issue any and all United States Letter Patent for the aforesaid inventions and improvements to the said Assignee as the assignee of the entire right, title and interest in and to the same, for the use of the said Assignee, its successors and assigns.

AND, for the consideration aforesaid, I do hereby agree that I and my executors and legal representatives will make, execute and deliver any and all other instruments in writing including any and all further application papers, affidavits, assignments and other documents, and will communicate to said Assignee, its successors and representatives all facts known to me relating to said inventions and

improvements noted above and the history thereof and will testify in all legal proceedings and generally do all things which may be necessary or desirable more effectually to secure to and vest in said Assignee, its successors or assigns the entire right, title and interest in and to the said improvements, inventions, applications, Letters Patent, rights, titles, benefits, privileges and advantages hereby sold, assigned and conveyed, or intended so to be by this Assignment;

AND, furthermore, I covenant and agree with said Assignee, its successors and assigns, that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by me and that full right to convey the same as herein expressed is possessed by me.

AND, whereas the Assignee herein agrees that my Assignment herein to the Assignee herein is contingent upon the (i) the Assignee making a draw of funds pursuant to an equity/crowdfunding fund raising sponsored by StartEngine Capital, LLC, and (ii) if such draw of funds does not occur on or before December 31, 2022, the Assignment herein is revoked in its entirety and is of no legal effect and any and all rights in U.S. 17/188,647 and PCT/US2021/02068, including all divisions, continuations, continuations-in-part, or renewals thereof, all Letters Patent which may be granted therefrom, and all reissues or extensions of such patents, and in and to any and all applications which have been or shall be filed under the Patent Cooperation Treaty, in any regional patent offices, shall irrevocably revert to James B. Paull, herein, or his successors or assigns, with no compensation owed by the Assignor.
