DECLARATION (37 C.F.R. 1.63) FOR UTILITY PATENT APPLICATION USING AN
APPLICATION DATA SHEET (37 C.F.R. 1.76) AND ASSIGNMENT

DYNAMIC NETWORK CONFIGURATION DURING DEVICE INSTALLATION

As a below named and undersigned inventor, I hereby declare that:

This declaration is directed to the attached application, or (if following box is checked):

United States application or PCT international application number _____
filed on _____.

The above-identified application was made or authorized to be made by me.

I believe that I am the original inventor or an original joint inventor of a claimed invention in the application.
I have reviewed and understand the contents of the application, including the claims.

I am aware of the duty to disclose to the United States Patent and Trademark Office all information known
to me to be material to patentability as defined in 37 CFR Section 1.56.

Whereas, I (“ASSIGNOR”) have made certain inventions, improvements, and discoveries (herein referred
to as the “Invention”) disclosed in the above-identified patent application and further identified by the
Docket Number provided above in the header of this document;

Whereas, **BIAMP SYSTEMS, LLC** (herein referred to as the “ASSIGNEE”), a corporation of Delaware
having a place of business at Beaverton, Oregon, desires to acquire, and I desire to grant to the ASSIGNEE,
my entire worldwide right, title, and interest in and to the Invention and in and to any and all patent
applications and patents directed thereto; **Biamp Systems, LLC, 9300 SW Gemini Drive, Beaverton, OR
97008 United States.**

Now, therefore, for good and valuable consideration, the receipt and sufficiency thereof being hereby
acknowledged, I hereby sell or have sold, assign or have assigned, and otherwise transfer or have transferred
to the ASSIGNEE, its successors, legal representatives, and assigns, my entire worldwide right, title, and
interest in and to the Invention, the above-identified United States patent application, and any and all other
patent applications and patents for the Invention which may be applied for or granted therefor in the United
States and in all foreign countries and jurisdictions, including all divisions, continuations, reissues,
reexaminations, renewals, extensions, counterparts, substitutes, and extensions thereof, and all rights of
priority resulting from the filing of such applications and granting of such patents. In addition, I hereby
authorize and request the Director of the United States Patent and Trademark Office to issue any United
States Patent, and foreign patent authorities to issue any foreign patent, granted for the Invention, to the
ASSIGNEE, its successors, legal representatives, and assigns, my entire worldwide right, title, and interest
in and to the same to be held and enjoyed by the ASSIGNEE, its successors, legal representatives, and
assigns to the full end of the terms for which any and all such patents may be granted, as fully and entirely
as would have been held and enjoyed by me had this Assignment not been made; and I agree to execute any
and all documents and instruments and perform all lawful acts reasonably related to recording this
Assignment or perfecting title to the Invention and all related patents and applications, in the ASSIGNEE,
its successors, legal representatives, and assigns, whenever requested by the ASSIGNEE, its successors,
legal representatives, or assigns.

I acknowledge my prior and ongoing obligations to sell, assign, and transfer my rights under this
Assignment to the ASSIGNEE and am unaware of any reason why I may not have the full and
unencumbered right to sell, assign, and transfer my rights hereby sold, assigned, and transferred, and have
not executed, and will not execute, any document or instrument in conflict herewith. I also hereby grant

the ASSIGNEE, its successors, legal representatives, and assigns, the right to insert in this Assignment any further identification (including, but not limited to, patent Application Number) which may be necessary or desirable for recordation of this Assignment. This Assignment is governed by the substantive laws of the State of Delaware, and any disputes will be resolved in a Delaware state court or federal court sited in Delaware.

I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

1. Legal Name of Inventor: **Christopher Pane**

Signature:  Date: Feb 4, 2020
