ASSIGNMENT AND DECLARATION FOR UTILITY OR DESIGN PATENT APPLICATION

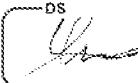

I am an inventor (referred to below as Assignor) of an invention entitled:

SYSTEMS AND METHODS FOR WEARABLE DEVICES THAT DETERMINE BALANCE INDICES

limited liability company of Florida

13550 Waterford Place

filed herewith. BioMech Sensor LLC, a corporation of Virginia whose post office address is 5701 Harbour Ridge Road, Midlothian, Virginia 23112 (hereinafter referred to as Assignee), desires to obtain an assignment of this invention;

DS

5/13/22

THEREFORE, for good and valuable consideration, I have sold, assigned, transferred, and set over, and do hereby sell, assign, transfer, and set over to Assignee, its successors and assigns, my entire right, title, and interest in and to this invention, and this application, and all divisions, and continuations thereof, and all Letters Patent of the United States which may be granted thereon, and all reissues and reexaminations thereof, and all rights to claim priority on the basis of this application in any foreign country, and all applications for Letters Patent which may become filed for this invention in any foreign country and all Letters Patent which may be granted on this invention in any foreign country, and all extensions, renewals, reexaminations and reissues thereof; and I authorize and request the Director of the United States Patent and Trademark Office (USPTO) and any official of any foreign country whose duty it is to issue patents on applications as described above, to issue all Letters Patent for this invention to Assignee, its successors and assigns, in accordance with the terms of this Assignment;

AND, I covenant that I have the full right to convey the interest assigned by this Assignment, and I have not executed and will not execute any agreement in conflict with this Assignment;

AND, I further covenant and agree that I will, without further consideration, communicate with Assignee, its successors and assigns, any facts known to me respecting this invention, and testify in any legal proceeding, sign all lawful papers when called upon to do so, execute and deliver any and all papers that may be necessary or desirable to perfect the title to this invention in said Assignee, its successors or assigns, execute all divisional, continuation, and reissue applications, make all rightful oaths and generally do everything possible to aid Assignee, its successors and assigns, to obtain and enforce proper patent protection for this invention in the United States and any foreign country, it being understood that any expense incident to the execution of such papers shall be borne by the Assignee, its successors and assigns.

AND, I authorize and request that the attorneys having Power of Attorney in this application, insert here in parentheses (Application No. 16/558,019, filed August 30, 2019) the filing date and application number of said application when known.

DECLARATION:

As a named inventor below, I declare that: (1) This declaration is directed to the above-identified application;

(2) the above-identified application was made or authorized to be made by me; (3) my residence and mailing address are as stated below next to my name; and (4) I believe I am an original inventor or an original joint inventor of a claimed invention in the application. I acknowledge that any willful false statements made in this declaration are punishable by fine or imprisonment of not more than five (5) years, or both, under section 1001 of Title 18 of the United States Code.

As a below named inventor, I have reviewed and understand the contents of the application, including the claims, and am aware of the duty to disclose to the USPTO all information known to me to be material to patentability as defined in 37 C.F.R. § 1.56.

2. At the time of execution of each assignment, each assignment contained a typographical error in the assignee name. The assignments listed “BioMech Sensor LLC, a corporation of Virginia” as the assignee. The assignments should state that BIOMECH SENSOR, LLC is a Florida limited liability company.

3. The assignee company existed as a Florida limited liability company prior to execution of the assignments, and the company was not incorporated or organized in Virginia during the time between recordation of the assignments and the instant

declaration. Therefore, the assignments contained a typographical error at the time they were executed and recorded.

4. The undersigned serves as President and CEO of BIOMECH SENSOR, LLC, and is an agent authorized to act on behalf of BIOMECH SENSOR, LLC.

5. In view of the facts of paragraphs 1-4 above, BIOMECH SENSOR, LLC, a **Florida limited liability company**, is the rightful assignee and owner of the entire right, title, and interest in and to each of the U.S. patent applications and issued patents listed in the table above, and all divisions, and continuations thereof, and all Letters Patent of the United States which may be granted thereon, and all reissues thereof, and all rights to claim priority in any foreign country on the basis of any of the above applications, and all applications for Letters Patent which may hereafter be filed for this invention in any foreign country and all Letters Patent which may be granted on this invention in any foreign country, and all extensions, renewals, and reissues thereof.

Respectfully submitted,

Dated: 6/7/2021
