ASSIGNMENT OF PATENTS

This ASSIGNMENT OF PATENTS (hereinafter "Assignment"), is entered into as of January 21, 2022 by and among MICELL SPV EQUITY LLC, a Delaware limited liability company having a registered address at 1061 Route 83, Pine Plains, NY 12567 ("SPV Equity"), MICELL SPV I LLC, a Delaware limited liability company having a registered address at 1061 Route 83, Pine Plains, NY 12567 ("SPV"), and MT ACQUISITION HOLDINGS LLC, a Delaware limited liability company having a registered address at 1061 Route 83, Pine Plains, NY 12567 P.O. Box 650 ("MTAH"). SPV Equity and SPV are referred to as "Assignors" and MTAH is referred to as "Assignee". Assignors and Assignee are collectively referred to as the "Parties" and individually referred to as a "Party."

WHEREAS, Assignors wish to assign to Assignee, and Assignee wishes to acquire, the entire right, title, and interest to (i) the patents and patent applications listed in Schedule A ("Patents"), (ii) the right, title and interest in and to any and all divisional, continuation, continuation-in-part, substitute or reissue applications pertaining to the Patents, (iii) patents applied for or granted worldwide pertaining to the Patents and (iv) the right to sue and collect past damages in connection with the Patents, in the United States and throughout the world (i-iv collectively referred to as the "Patent Rights"); the Parties hereby agree as follows:

1. Assignors hereby assign, transfer, convey and set over to the Assignee, its successors and assigns, and Assignee hereby accepts, all right, title and interest, in the United States and throughout the world, in and to the Patent Rights, to have and to hold the same, unto Assignee for its own use and enjoyment and for the use and enjoyment of its successors and assigns, for the full term or terms of all such rights. The assignment of the Patents shall include the right to file domestic patent applications under the laws of the United States and all other countries that claim the benefit of any of the foregoing applications, and to file foreign patent applications in the name of the Assignee or its affiliates, wherever such right may be legally exercised, and all rights under any International Conventions for the Protection of Industrial Property, including the Paris Convention and the European Patent Convention and the corresponding rights to claim benefit from the priority of such applications.

2. Assignors hereby authorize and request the United States Commissioner of Patents, and the Patent Office officials in foreign countries as are duly authorized by the respective foreign patent laws to issue patents, to issue any and all patents within the Patent Rights to the Assignee as the owner thereof.

3. Assignors hereby agree, without further consideration and without expense to the Assignors, to sign all documents and to perform all other lawful acts which the Assignee may reasonably request to make this Assignment of the Patent Rights fully effective. Assignors hereby also declare that Assignee may take any steps for recordal of this Assignment in the name of Assignee.

4. This Assignment shall be binding upon, inure to the benefit of, and be enforceable by, the Parties and their respective successors and permitted assigns.

5. This Assignment shall be governed by and construed in accordance with the laws of the State of North Carolina, United States of America.

6. This Assignment may be executed and delivered (including electronically) in one or more counterparts, and by the Parties in separate counterparts, each of which when executed shall be deemed to be an original, but when taken together shall constitute one and the same agreement.
