## INTELLECTUAL PROPERTY ASSIGNMENT

The **inventor identified below** (“**Assignor**”) may have been involved with and/or may have invented certain improvements, innovations, inventions, concepts, ideas, technologies, methods, processes, assemblies, components, devices, designs, or discoveries, (collectively hereinafter referred to as the “**Work**”).

**Innovelis, Inc.**, a Minnesota Corporation having a place of business at 4713 231st Place SE, Sammamish, WA, (“**Assignee**”) desires to acquire all rights, title, and interest in and to the Work.

**The Work comprises the following patent application:**

- **U.S. Patent Application No. 29/813,818 entitled MOUNT FOR ELECTRONIC DEVICES (Docket Number INNOVELIS.128DA)**

**The Work comprises the following designs:**

The Work also comprises all continuation patent applications, continuation-in-part patent applications, divisional patent applications, and foreign patent applications that claim priority to at least one of the above patent applications. The Work also comprises all foreign and domestic patents that issue from at least one of the above patent applications.

Therefore, for valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby assigns to Assignee 100% of Assignor’s right, title, and interest throughout the world in the Work.

Assignor hereby assigns to Assignee 100% of Assignor's right, title, and interest in all foreign patents that may issue from foreign patent applications (as well as divisions and continuations in whole or part or substitute applications) filed claiming the benefit of the Work.

Therefore, Assignor acknowledges that Assignor has sold, assigned, conveyed, and transferred to Assignee, Assignee's successors, and Assignee's assigns the entire right, interest, and title throughout the world in the Work, including all patent properties filed or issued upon the Work.

Assignor authorizes the United States Patent and Trademark Office and all foreign patent offices to issue any patents resulting from the Work to Assignee. The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns at least as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor hereby covenants and agrees to do everything reasonably possible to help the Assignee seek, obtain, and enforce patent protection related to the Work when requested to do so by the Assignee in a timely and proper manner. Assignor further agrees to (a) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (b) perform such other acts as Assignee lawfully may request to obtain or maintain patent protection on the Work in any and all countries.

Assignor hereby assigns, conveys, and transfers to Assignee all claims for damages and all remedies (including past, present, and future damages and remedies) arising from or related to the Work and the interests assigned herein.

**Inventor Signature**

**Legal name of inventor** (Assignor): Eric John Wengreen

IN WITNESS WHEREOF, I have executed this intellectual property assignment and agreement.
