CONFIRMATORY ASSIGNMENT

WHEREAS, the undersigned assignors

Chloe Archambault of 4500 boul. Lasalle, Verdun, Quebec, H4G 2A8, Canada; and

Gabriel Ethier-Majcher of 1719 ave. Pothier, Montreal, Quebec, H2C 1N3, Canada;

(the "Assignors"), are the inventors of an invention as set forth and described in United States provisional patent application bearing serial number 63/196,779 and entitled

Topological qubit circuit with pi-junction couplers

(the "Invention");

AND WHEREAS,

ANYON SYSTEMS INC. of 1985, 55th Avenue, Unit 100, Dorval QC H9P 1G9, Canada (the "Assignee")

had, as of **June 4, 2021** (the "Effective Date") acquired the entire right, title, interest, property and benefit in and for the United States, and all other countries in the world, in and to the Invention held by the Assignors;

NOW THEREFORE, for good and valuable consideration already provided, the receipt and sufficiency of which are hereby acknowledged,

the Assignors confirm by these presents that the Assignors had, as of the Effective Date, sold, assigned, granted, transferred and set over to the Assignee and do hereby sell, assign, transfer and set over to the Assignee, to any extent not already sold, assigned, granted, transferred or set over to the Assignee and to the Assignee's successors, assigns, nominees or other legal representatives, its entire right, title, interest, property and benefit including any right to sue for past infringements in and for the United States and all other countries of the world, in and to the Invention, any and all applications filed therefor, including any and all corresponding applications whether in the form of divisions, continuations, re-examinations, re-issues and extensions thereof, any and all patents that may issue, be granted or result therefrom for the Invention, and any and all rights of priority resulting from the filing of any of the above-identified applications and any previously filed applications in respect of the Invention under international conventions, treaties or otherwise, the same to be held and enjoyed as fully and exclusively as the same would have been held and enjoyed by any and all of the Assignors had this assignment not been made;

the Assignors agree to do all lawful acts and to execute and deliver, without further consideration, all further documents as may reasonably be required by the Assignee, or by its successors, assigns, nominees, or other legal representatives, to obtain said patents in the United States and any other countries for the Invention and vests or secures the same in the Assignee, and in the Assignee's successors, assigns, nominees or other legal representatives; and

the Assignors grant to said Assignee, its successors, assigns, nominees or other legal representatives, the power to insert on this Confirmatory Assignment any further information which may be necessary or desirable in order to comply with statutory requirements for recordation of this document.

THIS CONFIRMATORY ASSIGNMENT may be executed in counterparts, all of which shall be considered one and the same agreement, and is binding on the heirs, executors, successors and administrators of the Assignors.
