Whereas, **LumaForge, Inc.** is the owner of certain new and useful improvements entitled **SHARED STORAGE SYSTEMS AND METHODS FOR COLLABORATIVE WORKFLOWS**

 X for which an application for a United States Letters Patent was filed on August 28, 2019

Application Number 16/553,604

 for which an application for a United States Letters Patent is filed herewith.

Now therefore, in consideration of one dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency whereof are hereby acknowledged, **LumaForge, Inc.** (hereinafter referred to as "Assignor") **hereby conveys**, transfers and assigns to **New Concepts Development Corporation** (hereinafter referred to as "Assignee"), a corporation of IL, having a principal place of business at 8 Galaxy Way, Woodstock, IL 60098, its successors, legal representatives and assigns, **the entire right**, title and interest throughout the world in the above-mentioned invention or improvements, in the above-mentioned application for United States Letters Patent, and any and all other related applications for United States Letters Patent and applications in any other countries **which may be filed, either solely or jointly with others**, on said invention or improvements, and in any and all Letters Patent of the United States or of any other country which may be obtained on any of said applications, and in any reissue, reexam or extension thereof. The above assignment is of all right, title and interest in the assigned invention, improvements, patent applications and patents, including **the assignment and transfer of all rights to enforce said patent and to sue for and recover damages for any and all infringements thereof, including but not limited to, all past infringements from the date of issue of any relevant patent.**

Assignor hereby authorizes and requests the Commissioner of Patents to issue said Letters Patent to said Assignee.

Assignor warrants itself to be the owner of the interest herein assigned and to have the right to make this assignment; and further warrants that there are no outstanding prior assignments, licenses, or other rights in the interest herein assigned.

For said **consideration Assignor hereby agrees**, upon the request and at the expense of said assignee, its successors, legal representatives and assigns, to execute any and all divisional, continuation, and C-I-P applications for said invention or improvements, and any necessary oath or supplemental oath or affidavit relating thereto, and any application for the reissue, reexam or extension of any Letters Patent that may be granted upon said application that said assignee, its successors, legal representatives and assigns may deem necessary or expedient.

For said **consideration Assignor further agrees**, upon the request of said assignee, its successors, legal representatives and assigns, in the event of said application or any division, continuation, or C-I-P thereof, or Letters Patent issued thereon, or any reexam, reissue or application for the reissue thereof becoming involved in interference, to cooperate to the best of its ability with said assignee, its successors, legal representatives and assigns in the matters of preparing and executing the preliminary statement and giving and producing evidence in support thereof.

Assignor further agrees to perform, upon such request, any and all affirmative acts to obtain Letters Patent, and vest all rights therein hereby conveyed in said assignee, its successors, legal representatives and assigns whereby said Letters Patent will be held and enjoyed by said assignee, its successors, legal representatives and assigns to the end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by **Assignor** if this assignment and sale had not been made, and for said **considerations Assignor hereby also assigns** to said assignee, its successors, legal representatives and assigns the entire rights, title and interest in said invention or improvements for any and all foreign countries and the right of priority for patent and utility model applications in all countries arising under any applicable international convention for the protection of industrial property and/or any internal priority legislation of such countries, **and Assignor further agrees** upon the request of said assignee, its successors, legal representatives and assigns to execute any and all documents that shall be required to be executed in connection with any and all applications for foreign Letters Patent therefor, including the prosecution thereof, and to execute any and all documents necessary to invest title in said foreign applications and patents in said assignee.
