PATENT ASSIGNMENT

WHEREAS, Rick Roth ("Assignor") is an inventor of U.S. Patent Application 16/682,974, filed 13 November 2019 for SYSTEM AND METHOD FOR ASSOCIATING ENDORSERS WITH ARTICLES ON THE INTERNET (the "Assigned Application"), and

WHEREAS, Trusted Origins Corp., having a place of business at 742 Widgeon Street, Foster City, CA ("Assignee") desires to acquire all rights in and to the Assigned Application and the patent (including any reissues or extensions) that may be granted from any application claiming priority therefrom.

THEREFORE, for good valuable consideration, the sufficiency and receipt of which is acknowledged, Assignor assigns to Assignee the entire right, title, and interest in the invention and Assigned Application and any subsequent application(s) claiming priority therefrom, including any and all such rights in any divisions, continuations in whole or part, substitute applications, reissues, and renewals thereof, to Assignee for the entire term of any granted patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part, or substitute applications) filed claiming the benefit of the Assigned Application.

Assignor authorizes the United States Patent and Trademark Office to issue any Patents resulting from any application claiming priority from the Assigned Application to Assignee. The right, title, and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the prosecution of the Application and foreign counterparts; (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries.
