COMBINED ASSIGNMENT AND DECLARATION OF PATENT APPLICATION

Title of Invention: APPARATUS AND METHODS FOR REDUCING FUGITIVE GAS EMISSIONS AT OIL FACILITIES

Application No.: 16/517,586 filed on July 20, 2019

ASSIGNMENT

WHEREAS, I, David L. Armitage, residing at Denver, Colorado, am an original inventor or an original joint inventor of the invention disclosed in the above-identified application for a United States Letters Patent ("Inventor");

WHEREAS, Project Canary, Inc., a Colorado corporation having a principle place of business at 9135 East Jefferson Place, Denver, Colorado, 80903, hereinafter referred to as "Project Canary" is desirous of acquiring an interest in the invention and application and in any United States Letters Patent and Registrations which may be granted on the same;

For good and valuable consideration, receipt of which is hereby acknowledged by Inventor, I have assigned, and by these presents do assign to Project Canary all right, title, and interest in and to the invention and application and to all foreign counterparts (including patent, utility model, and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on any patent application claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention. The right, title, and interest is to be held and enjoyed by Project Canary and Project Canary's successors and assigns as fully and exclusively as it would have been held and enjoyed by me had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation, or extension thereof.

I further agree that I will, without charge to me, but at Project Canary's expense, (a) cooperate with Project Canary in the prosecution of U.S. Patent applications and foreign counterparts on the invention and any improvements, (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as Project Canary lawfully may request to obtain or maintain Letters Patent and Registrations for the invention and improvements in any and all countries, and to vest title thereto in Project Canary, or Project Canary's successors and assigns. I waive any obligation of Project Canary to file foreign counterparts on the invention or continue pursuit of prosecution of the invention and application and to all foreign counterparts, Project Canary can in its sole discretion choose which countries to file foreign counterparts, unless I have previously informed Arapaho Technologies in writing of any foreign counterparts I would like the option to pursue or prosecute.

I hereby authorize and request Patent Engineering LLC, 3532 Franklin Street, Denver, Colorado, 80207, to insert herein above the application number and filing date of said application when known.

DECLARATION

As the above named Inventor, I hereby declare that:

- This declaration is directed to the application listed above and any applications related by priority that may include claims or claim elements supported in the application listed above.
- The above-identified application was made or authorized to be made by me.
- I believe that I am the original inventor or an original joint inventor of a claimed invention in the application.
- I hereby acknowledge that any willful false statement made in this declaration is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five years, or both.

IN TESTIMONY of both the Assignment and Declaration, I have signed my name on the date indicated.

Dated: 7/19/2019
