**ASSIGNMENT
JOINT OWNERSHIP**

WHEREAS, Codexis, Inc. (hereinafter termed "Assignor"), a corporation of the State of Delaware, having a place of business at 200 Penobscot Drive, Redwood City, CA 94063, is the owner of the entire right title and interest in and to U.S. Application having Serial No. 17/005,913, and International Application No. PCT/US2020/048405 (collectively "Application"), both having a filing date of August 28, 2020, entitled "ENGINEERED LIPASE VARIANTS" and the inventions disclosed therein, and

WHEREAS, Codexis, Inc. and, Société des Produits Nestlé S.A., a Swiss limited company, having a place of business at Avenue Nestlé 55, 1800 Vevey, Switzerland (hereinafter termed "Assignee"), desire to jointly and equally own the entire right, title and interest in and to said Application and the invention disclosed therein, and in and to all embodiments of the invention, heretofore conceived, made or discovered by the inventors (all collectively hereinafter termed "said invention"), and in and to any and all patents, inventor's certificates and other forms of protection (hereinafter termed "patents") thereon granted in the United States and foreign countries.

NOW, THEREFORE, in consideration of good and valuable consideration, receipt and sufficiency of which is acknowledged by said Assignor to have been received in full from said Assignee:

1. Said Assignor does hereby sell, assign, transfer and convey unto said Assignee, an undivided one half its full right, title and interest (a) in and to said Application and said invention; (b) in and to all rights to claim priority based on said Application; (c) in and to all rights to apply for foreign patents on said invention pursuant to the International Convention for the Protection of Industrial Property or otherwise; (d) in and to any and all applications filed and any and all patents granted on said invention in the United States or any foreign country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said Application; (e) in and to each and every reissue or extensions of any of said patents.

2. Said Assignor hereby covenants and agree to cooperate with said Assignee to enable said Assignee to enjoy to the fullest extent the right title and interest herein conveyed in the United States and foreign countries. Such cooperation by said Assignor shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting any of said

applications; (c) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (d) for filing and prosecuting applications for reissuance of any said patents; (e) for interference or other priority proceedings involving said invention; and (f) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Assignor in providing such cooperation shall be paid for by said Assignee.

3. The terms and covenants of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Assignor, his/her respective heirs, legal representatives and assigns.

4. Said Assignor hereby warrant and represent that he/she has not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, the said Assignor have executed and delivered this instrument to said Assignee.
