PATENT ASSIGNMENT

This Patent Assignment ("Assignment") is made and entered into effective as of January 24, 2022 (the "Effective Date") by and between Ann Williams Group, LLC, a Delaware limited liability company ("Assignor") and Playmonster Group, LLC, a Delaware limited liability company having a principal place of business at 1400 E Inman Parkway, Beloit, WI 53511 ("Assignee").

A. Assignor is the owner of the issued patents and pending patent applications listed in Exhibit A attached hereto; and

B. Assignee wishes to purchase, and Assignor is willing to sell, assign, convey, and transfer to Assignee, all right, title and interest in and to each such issued patent and pending patent application listed in Exhibit A, each invention described therein, and all related and corresponding rights in any jurisdiction in the world (collectively, the "Patents") on the following terms and conditions.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by Assignor and Assignee, the parties agree as follows:

1. Assignment. Assignor hereby irrevocably sells, assigns, conveys, transfers and sets over to Assignee, its successors and assigns, the entire worldwide right, title and interest in and to: (a) the Patents, any related or corresponding United States provisional or non-provisional application embodying the inventions described in the Patents or any other United States application claiming priority to a provisional application under 35 U.S.C. § 119(e) or converted therefrom, or any application claiming the benefit of a non-provisional application under 35 U.S.C. §120, including all divisionals, continuations, continuations-in-part, reissues and reexaminations thereof and all patents that may be granted thereon, including any other counterparts thereto worldwide, patents of addition, utility models, inventors' certificates, industrial property protection, patent rights and right to claim priority thereto in any country, and all extensions and renewals thereof existing now or in the future, including, without limitation, all applications for patents, utility models and designs that may hereafter be filed for in any country or countries other than the United States, together with the right to file such applications under the Patent Laws of the United States, the International Convention for the Protection of Industrial Property, or any other international agreement or the domestic laws of the country in which any such application is filed, as may be applicable, and all forms of industrial property protection, including without limitation, patents, utility models, inventors' certificates and designs, which may be granted in any country or countries foreign to the United States and all extensions, renewals and reissues therefor (with the Patents, collectively, the "Patent Property"), and (b) all claims, demands, income, damages, royalties, payments, accounts and accounts receivable now or hereafter due and/or payable, and rights to causes of action and remedies, both statutory and based upon common law, that Assignor has or might have by reason of any past, present or future infringement or other violation of any of the Patents or Patent Property prior to, on, or after the date of this Assignment, together with the right to sue, prosecute and collect damages for such claims, demands, and rights of action in Assignee's own name, all of said rights to be held and enjoyed by Assignee, for its own use and benefit and for the use and benefit of its successors, assigns or other legal representatives as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made.

2. Authorization. Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and the corresponding entities or agencies in any applicable foreign countries, to issue the same to Assignee in accordance with the terms of this Assignment and to record Assignee as owner of the Patent Property, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.

3. Further Assurances. Assignor will promptly communicate to the Assignee, its successors, legal representatives and assigns, any facts known to it respecting the Patent Property, testify in any legal proceeding relating to the Patent Property, execute or cause its current or former employees or contractors to execute, as applicable, all divisional, continuing, reissue and foreign applications, make all rightful oaths, and generally do everything reasonably possible to aid the Assignee or its successors, legal representatives and assigns, to obtain and enforce proper protection for the Patent Property in all countries and to record Assignee as owner of the Patent Property, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives. The cost of recording and registering ownership rights in the Patent Property shall be borne solely by Assignee, its successors and assigns.

4. Miscellaneous. This Assignment and the exhibits hereto constitute the entire understanding and agreement of the parties with respect to the subject matter hereof and supersede any and all written or oral, prior or contemporaneous understandings and agreements. This Assignment may only be amended by written agreement of the parties. This Assignment may be executed and delivered by facsimile or portable document format in two or more counterparts, each of which shall be an original and all of which together shall constitute one and the same instrument. This Assignment shall be binding upon the parties, their heirs, successors and assigns, and all others acting by, through, with or under their direction, and all those in privity therewith. The governing law of this Assignment shall be that of the state of New York, without regard to its conflicts of law principles.
