ASSIGNMENT BY INVENTOR

This Assignment is by the following individual (the "Assignor"):

- Richard Quick having a mailing address of 22970 Bouquet Canyon, Mission Viejo, California, 92692.

The Assignor invented one or more certain inventions (the "Invention(s)") described in an application for Letters Patent of the United States titled BRAIDING MACHINE AND METHODS OF USE, naming the Assignor as inventor, and filed on May 19, 2017 as U.S. Application No. 62/508,938 (the "Application").

Inceptus Medical, LLC, a Limited Liability Company of California having its principal place of business at 8 Argonaut, Suite 100, Aliso Viejo, California 92656 (the "Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Applications, and in and to any patents (the "Patents") that may be granted for the Invention(s) in the United States and/or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignor acknowledges, Assignor hereby sells, assigns, and transfers to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Applications, and any Patents; any divisions, continuations, and continuations-in-part of the Applications and any other application claiming priority rights from the Applications; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Applications (collectively, the "Rights"). Assignor warrants that Assignor owns the Rights, and that the Rights are unencumbered. Assignor also agrees to not sign any writing or do any act conflicting with this Assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignor requests the Commissioner of Patents to issue

any Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.
