CONFIRMATORY ASSIGNMENT

This confirmatory assignment is effective as of February 23, 2021 (the "Effective Date") by and between the following parties:

THE VOID, LLC, a Delaware limited liability company (the "Assignor"), having a place of business at 644 North 2000 W, Lindon, UT 84042; and

VR EXIT LLC, a Delaware limited liability company (the "Assignee"), having a place of business at 2506 Barcelona Drive, Fort Lauderdale, FL 33301;

WHEREAS, Assignor and Assignee have previously entered into an agreement, "Assignment of Patents" (the "Assignment") dated October 13, 2020, a copy of which is recorded in the assignment records of the United States Patent and Trademark Office at Reel 054213, Frame 0373.

WHEREAS, Assignor had been the owner of the entire right, title and interest in and to certain Assets identified in the Assignment, including the right to claim priority to certain patent applications and the entire right, title and interest in and to the inventions disclosed in the patent applications and patents described in the Assignment, including without limitation the patent applications listed on Exhibit 1 of the Assignment (the "Patent Applications").

WHEREAS, Assignor has caused inventors identified on the Patent Applications listed on Exhibit A hereto to execute confirmatory assignments in favor of Assignor, copies of which are being recorded at the United States Patent and Trademark Office herewith, each of which confirms that such inventors had effectively assigned their rights in the Patent Applications, including the right to claim priority to certain patent applications, as of a date prior to the date of the Assignment;

WHEREAS, Assignee had received, by assignment from Assignor, Assignor's entire right, title and interest in and to the Patent Applications, including the right to claim priority to certain patent applications;

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, Assignor confirms as of the date of this confirmatory assignment that it has sold, assigned and transferred, and, by these presents does hereby sell, assign and transfer to Assignee, its successors and assigns, for the territory of the United States of America and the entire world, effective as of the October 13, 2020, its entire right, title and interest in and to such inventions, such Patent Applications and such patents and any patents, and any reissues and extensions thereof, which issue in any country upon patent applications which correspond with or claim priority from any of such applications or any divisional, continuation-in-whole, or continuation-in-part thereof, including the right to claim priority and to sue and collect for past, present, and future infringement; the same to be held and enjoyed by Assignee for its own use, and for the use of its legal

representatives, to the full term for which such patents have been granted as fully and entirely as the same would have been held by Assignor had this assignment not been made. The Assignment is hereby amended to the extent necessary, if any, to give effect to the foregoing effective October 13, 2020. In all other respects, the Assignment is hereby ratified and confirmed.

Assignor does hereby further covenant and agree that it will not execute any writing or do any act whatsoever conflicting with these presents.
