SUPPLEMENTAL ASSIGNMENT

WHEREAS Marcus Dacar and Rick Pattillo were listed as inventors in U.S. Provisional Patent Application No. 63/175,450, titled "Systems and Methods for Reloading Material Storage Containers," and have each assigned his respective rights in the invention that is the subject of the '450 Application and the '450 Application to Rocky Mountain Investor Holdings, Inc., which was recorded at the USPTO at Reel/Frame 059547 / 0673;

WHEREAS a non-provisional application is being filed which claims the benefit of priority of the '450 Application; and

WHEREAS Joshua Wyrick and Robert Dacar are to be listed as additional inventors on the non-provisional application and wish to assign their respective rights in the invention and the non-provisional application to Rocky Mountain Investor Holdings, Inc. and are therefore executing this Supplemental Assignment.

We, Joshua Wyrick; and Robert Dacar (each, an "Inventor," and collectively, "Inventors"), all of the United States of America, are inventors of a new and useful **Reloadable Containerized System For Wet And Dry Proppants And Methods Of Making And Using Same** for which we are about to make application for Letters Patent of the United States, said application for Letters Patent claiming the benefit of priority of U.S. Provisional Patent Application No. 63/175,450.

Rocky Mountain Investor Holdings, Inc., having its principal place of business at 5500 Greenwood Plaza Boulevard, Suite 225, Greenwood Village, Colorado 80111 ("Company"), is desirous of acquiring all rights, title, and interests in and to the Inventors' invention, all patent applications for the invention, and all patents which may be granted for or upon the invention and applications in the United States of America and anywhere in the world.

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Inventor irrevocably assigns and transfers to Company the full and exclusive right, title, and interest, throughout the world, in and to the following:

- (a) the invention;
- (b) all United States patent applications for the invention;
- (c) any and all refilings, divisions, continuations, continuations-in-part, and conversions of those United States patent applications;

- (d) any and all patents of the United States of America which may issue from any of the above items;
- (e) any and all reissue and reexamination certificates of those United States patents;
- (f) any and all applications for the invention filed in any and all countries foreign to the United States of America;
- (g) any and all refilings, divisions, and continuations of those foreign-filed applications;
- (h) any and all patents, certificates, and registrations of countries foreign to the United States of America which may issue from those foreign-filed applications, refilings, divisions, and continuations;
- (i) any and all extensions of, and additions to, the foreign-filed applications and patents, certificates, and registrations related thereto; and
- (j) any and all claims, causes of action, and damages for past, present, and future infringement or other unauthorized use of the above items, along with the right to sue for and to collect damages and other relief.

Each Inventor further agrees that upon request, that Inventor will promptly provide Company or its legal representatives all pertinent facts and documents relating to the invention and all other items listed above and will testify as to the same in any interference, litigation, or proceeding related thereto. Further, each Inventor will promptly execute and deliver to Company or its legal representatives any and all papers, instruments, and affidavits required to apply for, obtain, maintain, issue, and enforce all of the items listed above.

All of the above shall be held and enjoyed by Company and its successors, legal representatives, and assigns for their own use and benefit, for the full term for which the protections listed above may be granted, and each Inventor hereby authorizes and requests the Commissioner of Patents and Trademarks to issue patents to Company in accordance with this Assignment.

This Assignment does not create any agency, employment, or partnership relationship between the parties. Unless set forth in a separate writing signed by Company, no Inventor has any right or interest in any proceeds related in any way to the items listed above. All terms contained herein shall be construed as singular, plural, masculine, feminine, or neuter, as context requires.

This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

IN WITNESS WHEREOF, this Agreement is executed on the date set forth below.
