WITNESSETH

WHEREAS, ASSIGNORS hold the patents/patent applications listed respectively in Exhibit 1 attached hereto.

WHEREAS, ASSIGNORS are desirous of assigning right, title, and interest and all rights of priority resulting therefrom in and to the aforesaid patents/patent applications on behalf of respective ASSIGNEES as outlined in Exhibit 1 attached hereto, which are agreeable to such assignment;

NOW, THEREFORE, the parties hereto agree as follows:

- 1) ASSIGNORS, for consideration the adequacy and receipt of which is hereby acknowledged, and other good and valuable consideration do hereby irrevocably sell, transfer, and assign the full and exclusive right, title and interest in and to the patents/patent applications referenced in Exhibit 1 attached hereto in favour of respective ASSIGNEES listed therein including any causes of action relating thereto and the right to collect damages recoverable thereon, the right to sue for infringement of any patents issuing therefrom and to collect damages including the right to sue for past infringement therefore, and all rights to continuing, continuations-in-part, divisional, improvement, substitute, renewal, reissue, re-examined and all other applications for Letters Patent which have been or shall be filed in the United States and all foreign countries on said Inventions or taking priority from any patent application describing the Invention; and all original, reissued or re-examined patents which have been or shall be issued in the United States and all foreign countries on said Inventions; and in and to all rights of priority resulting from the filing of said Applications.
- 2) ASSIGNORS will provide each respective ASSIGNEE with whatever documents are required for the recordal of such transfer at the competent patent offices and any other documents eventually requested by the foregoing governmental agencies. In the event ASSIGNEE is unable, after reasonable effort, to secure ASSIGNORS' signatures on any documents relating to protection or maintenance of the Inventions or Applications for any reason, ASSIGNORS hereby irrevocably designate and appoint ASSIGNEE and its duly authorized officers and agents as their agent and attorney-in-fact, to act for and on their behalf to execute and file any application or applications and to do all other lawfully permitted acts to further the prosecution, issuance, and maintenance of the Inventions or Applications or improvements to the Inventions or Applications with the same legal force and effect as if personally executed by ASSIGNORS.
- 3) The person signing this document on behalf of ASSIGNORS expressly declares to be duly empowered to assign the rights which are the object of this agreement in the name of ASSIGNORS.
- 4) ASSIGNORS declare that the assigned patents/patent applications referenced in Exhibit 1 are entirely free of any encumbrances and obligations and hereby covenant with ASSIGNEE, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the right to the Inventions conveyed herein has been made to another by the undersigned and that the full right to convey as herein expressed is possessed by ASSIGNORS free and clear of all liens, pledges, charges and encumbrances. In cases where such information is missing ASSIGNORS grant ASSIGNEE and agents or representatives of ASSIGNEE the right to modify this document to indicate the filing date and serial number assigned to the U.S. Patent Application(s) this document relates to. This Assignment may be executed in counterparts, each of which shall be deemed and original.
- 5) ASSIGNEE hereby authorizes and requests the Director of the U.S. Patent and Trademark office and all foreign Patent Offices to issue Patents for the subject matter assigned herein to ASSIGNEE for the sole and exclusive benefit of ASSIGNEE to the full end of the term for which said Patent may be granted as fully and entirely as the same would have been held by ASSIGNORS had this assignment and sale not been made.
- 6) This Agreement and its possible future amendments set forth the entire understanding of ASSIGNORS and ASSIGNEES in regards with the assignment of patents/patent applications listed in Exhibit 1 attached hereto.
- 7) The present agreement is entered into on definitive and irrevocable basis, and is binding upon the parties, subsidiaries, assignees, licensees and successors.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement
