We, **Darius Naigamwalla and Fahti Khosrow**, hereinafter each referred to as “ASSIGNOR,” for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, confirm that we each intended to and did have assigned, sold, transferred, and set over, and do hereby assign, sell, transfer, and set over unto **CEEK WOMEN’S HEALTH, INC.**, with an office at 1455 Northwest Irving Street, Suite 200, Portland, Oregon 97209, and to its successors, assigns, and legal representatives, collectively hereinafter referred to as “ASSIGNEE”:

(1) ASSIGNOR’s entire right, title, and interest for the United States and in all countries, in and to any and all inventions, discoveries, and applications which are disclosed in any of the patent(s) and/or patent application(s) listed in the enclosed SCHEDULE (the “Patent(s)”)*, including: (a) any subsequently filed patent applications, which claim priority to any of the Patent(s), including any renewals, revivals, reissues, reexaminations, extensions, continuations, continuations-in-part, and divisions thereof, and any substitute applications therefor; (b) any and all forms of intellectual and industrial property protection derivable from any of the Patent(s) or any renewals, revivals, reissues, reexaminations, extensions, continuations, continuations-in-part, divisions, and substitute applications of any of the Patent(s), including, without limitation, patents, applications, utility models, inventor’s certificates, and designs; and (c) the right to sue for past infringement and to collect for all past, present, and future damages;

(2) the full and complete right to file patent applications in the name of the ASSIGNEE, its designee, or in ASSIGNOR’s name as the ASSIGNEE, or its designee’s election, on said inventions, discoveries, and applications in all countries of the world;

(3) the entire right, title, and interest in and to any letters patent which may issue thereon in the United States or in any country, and any renewals, revivals, reissues, reexaminations, and extensions thereof, and any patents of confirmation, registration, and importation of the same; and

(4) the entire right, title, and interest in all Convention and Treaty Rights of all kinds thereon, including without limitation all rights of priority in any country of the world, in and to said inventions, discoveries, and applications.

ASSIGNOR hereby authorizes and requests the competent authorities to grant and to issue any and all such letters patent in the United States and throughout the world to the ASSIGNEE of the entire right, title, and interest therein, as fully and entirely as the same would have been held and enjoyed by ASSIGNOR had this assignment, sale, and transfer not been made.
