- (7) Nicholas MacMillan of c/o Keymed (Medical & Industrial Equipment) Limited, Keymed House, Stock Road, Southend-on-Sea, SS2 5QH Essex, United Kingdom,

hereinafter referred to as Assignor, have invented a certain invention entitled:

ENDOSCOPE FLUSHING PUMP

for which Hague International Design Patent Registration No. DM/220003 issued on March 30, 2022, and

WHEREAS, Keymed (Medical & Industrial Equipment) Limited of Keymed House, Stock Road, Southend-on-Sea, SS2 5QH Essex, United Kingdom, hereinafter referred to as Assignee, is desirous of acquiring the entire U.S. right, title, and interest of Assignor in, to, and under the invention and the referenced Hague International Design Patent Application, including the entire right, title, and interest of Assignor in, to, and under the U.S. designation thereof, filed on March 30, 2022, as U.S. Design Patent Application No. 35/514,067,

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged,

Assignor assigns and transfers to Assignee the entire U.S. right, title, and interest of Assignor in, to, and under the invention, the referenced Hague International Design Patent Application and U.S. Design Patent Application based thereupon, and other such U.S. patent applications (e.g., continuations, continuations-in-part, divisionals, reissues, and reexaminations) that may be filed in the U.S. with a claim of priority to the referenced Hague International Design Patent Application and/or the U.S. Design Patent Application based thereupon, as well as U.S. patents that may issue thereon and that may be modified as the result of applicable procedures (e.g., supplemental examinations, ex parte reexaminations, inter partes reexaminations, inter partes reviews, and post-grant reviews),

Assignor conveys to the Assignee the right to make applications in Assignee's own behalf for protection of the invention in the U.S. and to claim priority in the U.S. to the aforementioned patent applications and any priority documents referenced therein under applicable Treaties and/or Conventions, and any other international arrangements,

Assignor will not execute any writing or do any act conflicting with the terms of this assignment,

Assignor will at any time upon request, without further or additional consideration, but at the expense of the Assignee, execute such additional assignments and other writings and do such additional acts as the Assignee may deem necessary or desirable to pursue the U.S. design patent applications identified herein, including, but not limited to, rendering all necessary assistance in making applications for and obtaining patents that may issue thereon in the U.S. on the invention, and in enforcing any rights accruing as a result of such U.S. applications or patents, by, for example, executing statements and other affidavits,

Assignor and Assignee agree the terms of this assignment shall bind, and inure to the benefit of, the legal representatives, successors, and assigns of all parties hereto,

Assignor authorizes Assignee to insert in this assignment the number and filing date of the U.S. Design Patent Application if the number and filing date of the U.S. Design Patent Application are not recited herein at the time of execution of this assignment by any or all of the parties hereto,

Assignor and Assignee agree that U.S. law governs this assignment, and

Assignee acknowledges and accepts this assignment.
