ASSIGNMENT

Emanation Communications Group, LC, of 190 N. Cutler Street, Suite D, North Salt Lake, Utah, 84054, USA ("ECG") acquired certain patent rights in a June 9, 2021 agreement from EVOQ Nano, Inc. granting an exclusive license and all derivation and improvement rights derived therefrom pertaining to the following United States Patents:

United States Patent No. 10,610,934

United States Patent No. 10,137,503

United States Patent No. 9,919,363

United States Patent No. 9,849,512

United States Patent No. 9,434,006

and related applications ("ECG Acquired Patent Rights").

The Assignee, Lex Vest Ltd, having an address of 10161 Park Run Dr., Ste. 150, Las Vegas, NV, 89144, USA, desires to secure the ECG Acquired Patent Rights.

For good and valuable consideration (e.g. a Loan Agreement) to ECG by the Assignee, the receipt and sufficiency of which ECG hereby acknowledges, ECG HEREBY ASSIGNS TO THE ASSIGNEE:

The entire right, title, and interest, and all accrued rights including the ECG Acquired Patent Rights in the above-identified United States Patents and related applications, that is, and in all divisions, continuations and continuations-in-part of said patent and related applications, and all reissues and extensions of Letters Patent and Patents granted thereon, if any; in all corresponding applications filed in countries foreign to the United States, if any; and in all patents issuing thereon in the United States and foreign countries, if any.

The right to file foreign patent applications on ECG Acquired Patent Rights in Assignee's own name, wherever such right may be legally exercised, if any, including the right to claim the benefits of International Conventions for such applications.

ECG hereby authorizes and requests the United States Commissioner for Patents, and such Patent Office officials in foreign countries as are duly authorized by their laws to issue patents, to issue any and all patents on ECG Acquired Patent Rights, if any, to the Assignee as the owner of the entire interest, for the sole use and benefit of the said Assignee, its successors, assigns, and legal representatives.

ECG hereby agrees, without further consideration and without expense to ECG, to sign all lawful papers and to perform all other lawful acts which the Assignee may request of ECG to make this Assignment fully effective, including, by way of example but not of limitation, the following:

Prompt execution of all original, divisional, substitute, reissue, and other United States and foreign patent applications, if any, pertaining to the ECG Acquired Patent Rights, and all lawful documents requested by the Assignee to further the prosecution of any of such patent applications.

Cooperation to the best of ECG's ability in the execution of all lawful documents, the production of evidence, nullification, reexamination, reissue, extension, or infringement proceedings, if any, involving the ECG Acquired Patent Rights.

This assignment and agreement shall be binding upon ECG's assigns and legal representatives.

Dated July 11, 2022.
