PATENT ASSIGNMENT

U.S. Patent App. No. 17/804,484  
Filed: May 27, 2022

International Patent App. No. PCT/US2022/072628  
Filed: May 27, 2022

For good and valuable consideration, receipt of which is hereby acknowledged, we, Kevin Jordan, residing at 409 Willow Court, Gibsonville, IL 27249, United States of America, and John Grenaway, residing at 15620 Aberfeld Road, Huntersville, NC 28078, United States of America, hereby sell and assign to **Engineered Controls International, LLC**, a limited liability company organized and existing under the laws of the State of Delaware, having its principal place of business at 100 Rego Drive, Elon, NC 27244, United States of America ("Assignee"), its successors, assigns, nominees, or other legal representatives, the entire right, title, and interest in and to the invention entitled "LOW-EMISSION NOZZLE AND RECEPTACLE COUPLING FOR CRYOGENIC FLUID" (the "Subject Invention") invented by us, and the above-referenced applications filed on May 27, 2022, and any and all other applications therefor or arising therefrom, including all applications claiming the benefit thereof, and all original and reissued patents granted on any such applications, and all divisions and continuations of any such applications, including the subject matter of any and all claims which may be obtained in every such patent, and the right to apply for and obtain patents, registered designs and Utility Model Registrations which may be granted thereon in any foreign countries. We further authorize the Assignee, its successors, assigns, nominees or other legal representatives, to prepare, apply for and obtain any future patent applications for the Subject Invention on our behalf. We hereby authorize and request the Commissioner of Patents and Trademarks of the United States, and any official of any other country or countries foreign to the United States whose duty it is to issue patents on applications as aforesaid, to issue said Letters Patent, Registered Designs or Utility Model Registrations to the Assignee, its successors, assigns, nominees, or other legal representatives, as assignee of the entire interest herein assigned.

We covenant that we have not executed and will not execute any agreement in conflict herewith and agree that we will communicate to the Assignee, its successors, assigns, nominees, or other legal representatives, all facts known to us respecting the Subject Invention, whenever requested, and testify in any legal proceedings, sign all lawful papers, execute all non-provisional, divisional, continuation, and reissue applications, make all rightful oaths, and do all lawful acts required for such non-provisional, divisional, continuation, or reissue applications, or the procuring thereof, and that if and when the Assignee, its successors, assigns, nominees, or other legal representatives desire to file a disclaimer relating thereto, we will, upon request, sign all lawful papers required for the filing of such disclaimer.

We further covenant and agree that we will, at any time upon request, do everything legally possible to aid the Assignee, its successors, assigns, nominees, or other legal representatives, either in its or their own names, to apply for, obtain, and enforce proper patent and/or Utility Model protection for the Subject Invention in all countries, all without further consideration but at the expense of the Assignee, its successors, assigns, nominees, or other legal representatives.
