ASSIGNMENT

Whereas, Dr. Maximilian Wegener and Martin Schall (hereinafter referred to as "Assignor"), of Keselstr. 16, Kempten (Allgäu), 87435 Germany, has acquired by assignment the entire right, title, and interest in and to inventions and improvements described in the application for Letters Patent of the United States:

CHARGING STATION FOR ELECTRIC VEHICLES

Filed: 13 August 2020

U.S. Application No.: 35/511,414

and executed an application for Letters Patent of the United States of America based thereon.

Now, therefore, for good and valuable consideration, receipt and sufficiency of which are hereby acknowledged, Assignor has agreed to assign and transfer and does hereby assign and transfer unto **Numbat GmbH** (hereinafter referred to as "Assignee"), a corporation of Germany having its principal office at Keselstr. 16, Kempten, Germany, 87435, its successors and assigns, the entire right, title, and interest in and to said invention and application, and in and to any division or continuation (in whole or in part) of said application, and in and to any and all Letters Patent, reexaminations, reissues, or extensions thereof, of the United States of America and countries foreign thereto (including the right to apply for Letters Patent, Utility Models, or Inventors' Certificates in foreign countries in its own name and to claim any priority rights for such foreign applications to which such applications are entitled under international conventions, treaties, or otherwise), which have been or may be granted thereon or on any divisional, continuation (in whole or in part), renewal, reexamination, reissue, or other or further application based in whole or in part upon said invention or improvements thereon, to be held and enjoyed as fully and exclusively as they would have been by Assignor had this assignment and transfer not been made;

Assignor does further agree, for itself and its successors and assigns, to execute and deliver without further consideration any further applications, assignments, and documents, and to perform such other acts as it lawfully may, that may be deemed necessary by the Assignee, its successors, assigns, and nominees, fully to secure its right, title, and interest as aforesaid and to obtain or maintain Letters Patent, Utility Models, or Inventors' Certificates in any and all countries;

And Assignor does hereby authorize and request the Commissioner of Patents to issue any and all Letters Patent that may be granted upon any of said applications, to **Numbat GmbH** as the assignee of the entire right, title, and interest therein.

And, furthermore Assignor covenants and agrees with said Assignee, its successors and assigns, that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by Assignor and that full right to convey the same as herein expressed is possessed by the Assignor.

If the filing date and application number are not identified in this Assignment at the time of execution, Assignor and Assignee authorize the Assignee and its agents, legal representatives, successors and assigns, to insert such information into this Assignment and/or true and correct copies thereof at a later date.

In witness whereof, Assignor and Assignee have executed this Assignment on the days and years set forth below.
