**Paul Stemmiski**, a citizen of the United States, having a mailing address at 1023 Cherry Road, Memphis, Tennessee 38117, and a resident of Arlington, Tennessee (the "Inventors")

AND

**Wright Medical Technology, Inc.**, a Delaware corporation, having a place of business at 1023 Cherry Road, Memphis, Tennessee 38117 (the "Assignee").

WHEREAS the Inventors have made inventions relating to VIRTUAL GUIDANCE FOR ANKLE SURGERY PROCEDURES for which one or more patent applications will be filed, including:

Patent Cooperation Treaty (PCT) Patent Application No. PCT/US2019/036976, filed on June 13, 2019, entitled VIRTUAL GUIDANCE FOR ANKLE SURGERY PROCEDURES (attorney docket 1262-037WO01), for which the Inventors hereby authorize Assignee and its successors, legal representatives, and assigns to hereafter add above such application number and/or filing date for the above-identified application when known.

WHEREAS, Assignee desires to acquire the entire right, title and interest throughout the world

in and to the inventions, including the entire right, title and interest in and to the above-identified application and all other applications filed for the inventions, and in and to all patents granted for the inventions, and including any and all rights of priority in the inventions, including any and all rights of priority in the above-identified application and all other applications filed for the inventions.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Inventors have sold, assigned, conveyed and transferred and hereby do sell, assign, convey and transfer to Assignee, and its successors, legal representatives, and assigns, the entire right, title and interest throughout the world in and to the inventions, including the entire right, title and interest in and to all applications that have been filed or may be filed for the inventions in the U.S. or in any foreign country, countries or organizations, including the above-identified application and all U.S. or foreign applications claiming benefit or priority to the above-identified application, and including any provisional applications, non-provisional applications, continuation applications, continuation-in-part applications, divisional applications, reissue applications, reexamination applications, renewal applications, extension applications, or design applications for any of the inventions, and in and to all U.S. patents, foreign patents, utility models, design registrations, inventor's certificates and other like rights of exclusion granted for the inventions, including all patents granted on or based on the above-identified application or any of the other foregoing applications in the U.S. or any foreign country, countries, or organizations, and further including all rights of priority in the inventions and in the above-identified application and any of the other foregoing applications under international conventions, treaties, laws or agreements, including the right to file the above-identified application and any of the other foregoing applications and the right to claim the priority of the above-identified application and any of the other foregoing applications under the International Convention for the Protection of Industrial Property, or any other conventions, treaties, laws or agreements of like purposes, to be held and enjoyed by Assignee and its successors, legal representatives, and assigns, for its own use and benefit and use and benefit of its successors, legal representatives, and assigns, to the full end of the term for which any of the U.S. patents, foreign patents, utility models, design registrations, inventor's certificates or other rights of exclusion are granted.

AND, the Inventors do hereby authorize and request the Commissioner of Patents of the U.S., and any official of any country, countries or organizations foreign to the U.S., having an applicable duty, to issue all patents, utility models, design registrations, inventor's certificates and other like rights of exclusion granted for the inventions to the Assignee, its successors, legal representatives, and assigns as the assignee of the entire, right, title and interest therein.

AND, the Inventors do hereby authorize the Assignee to apply in all countries in their names or in its own name for U.S. patents, foreign patents, utility models, design registrations, inventor's certificates and like rights of exclusion for the inventions, and the Inventors agree for themselves and their respective heirs, legal representatives and assigns, without further compensation to perform such lawful acts and to sign such further applications, assignments, Preliminary Statements and other lawful documents as the Assignee may reasonably request to effectuate fully this assignment.

AND the Inventors and Assignee agree that this Assignment shall be governed under the laws of the State of Tennessee and the United States.
