PATENT AND DESIGN RIGHT ASSIGNMENT

This Patent and Design Right Assignment is effective as of 31 December 2014 between Speculative Product Design, LLC, a California limited liability company, with a business address of 177 Bovet Road, Suite 200, San Mateo, California 94402, United States, and prior addresses of 303 Bryant Street, Mountain View, California 94041 and 227 Forest Avenue, Palo Alto, California 94301, United States ("Assignor"), and Samsonite IP Holdings S.à.r.l., a private limited liability company (*société à responsabilité limitée*) governed by the laws of Luxembourg, with a registered address of 13-15 Avenue de la Liberté, L-1931 Luxembourg ("Assignee").

WHEREAS, Assignor is the owner of certain inventions and patent and design rights including but not limited to those represented by the patent and design right applications and registered or issued patents and design rights listed in Exhibit A hereto (collectively the "Patents");

WHEREAS, Assignor desires to assign and Assignee desires to receive all of Assignor's right, title and interest in and to said inventions and Patents;

NOW, THEREFORE, for the consideration of USD \$10.00 and other good and valuable consideration, the receipt and sufficient of which is hereby acknowledged, Assignor hereby distributes, transfers, assigns, and otherwise conveys to Assignee, its successors and assigns, all of Assignor's right, title, and interest in and to said inventions and Patents as they exist anywhere in the world and as may be created or acquired at any date in the future, including but not limited to any and all applications and issued patents and all applications and registrations for design rights, all provisional, non-provisional, continuation, continuation-in-part, divisional, international, foreign, regional and convention applications corresponding thereto, and any and all Letters Patent of the United States and countries and regions foreign thereto which may grant or have granted thereto or be lodged in relation thereto, any reissue or reexamination thereof or to be obtained therefor, any renewals, or substitutes thereof, and any and all priority rights or priority claims of International Convention rights for the full term or terms for which the same may be granted, along with all rights to proceeds of the foregoing, including, without limitation, income, royalties, damages, profits and payments now or hereafter due or payable with respect thereto, and any and all rights of action of Assignor, and the right to take proceedings and to seek and recover damages and all other available remedies, against third parties for past, present, or future infringement of the Patents. Assignor hereby authorizes and requests the competent authorities to grant and to issue any and all such Patents in the United States and throughout the world to the Assignee along with the entire right, title and interest therein.

Assignor shall take such actions and shall execute and deliver all such further instruments, documents or other writings, and perform any other reasonable acts that Assignee may request, that may be necessary or appropriate to carry out and effectuate the provisions of this Assignment and to establish, enforce or defend Assignee's rights in the Patents anywhere in the world.

At the request and expense of Assignee, Assignor shall provide all reasonable assistance which Assignee considers necessary in connection with bringing or defending any proceedings in relation to the Patents.

IN WITNESS WHEREOF, the parties hereto have executed this Assignment effective as of the date first set forth above.
