1. The Assignor represents that it is the owner of the patents and patent applications listed above, and of all foreign and domestic patents, patent applications, including continuation-in-part applications, reissues, re-examinations, certificates of invention, and the like that in the past, present, or future derive priority from, or are entitled to the benefit of the filing date of, the patents and patent applications listed above (the "Patents and Patent Applications") and of all inventions

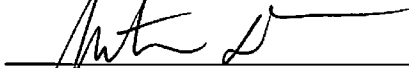

and improvements that are described in the Patents and Patent Applications (the "Inventions"). The Patents and Patent Applications and the Inventions are collectively referred to as the "Patent Assets."

2. The Assignor assigns to the Assignee its entire worldwide right, title, and interest in and to the Patent Assets, including the right to file and prosecute, in the Assignee's name wherever permitted by law or in the name of the Assignor wherever necessary, patent applications, including corresponding and continuing or divisional applications, reissues, reexaminations, certificates of invention, and the like based on any of the Patent Assets, and to claim priority to any of the Patents and Patent Applications pursuant to the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other treaties of like purposes. The Assignor acknowledges receipt of fair and adequate consideration for this Assignment.
3. The Assignor shall, when requested by the Assignee and at no cost to the Assignor, (i) execute or cause to be executed all rightful oaths, assignments, and powers of attorney to Assignee or to agents and legal representatives of Assignee, and all other papers necessary and proper to carry out the intent and purpose of this Assignment, (ii) execute all papers necessary in connection with the Patents and Patent Applications, and any continuing, divisional, reissue, reexamination or other corresponding application or related post-grant proceeding and to execute any separate assignment in connection with any such application as the Assignee may deem necessary or expedient; and (iii) perform all affirmative acts that may be necessary to obtain a grant of a valid patent or patents to the Assignee on any of the Inventions.
4. The Assignor assigns to the Assignee all of the Assignor's right, title, and interest in and to any claims, whether known or unknown, suspected or unsuspected, applicable to past, present, or future damages, of any nature, including choses in action, that the Assignor has or may have against any party for infringement of the Patents and Patent Applications, and acknowledges receipt of fair and adequate consideration for this Assignment.
5. The Assignor represents that the Assignor has the full right to convey the interests assigned by this Assignment, and that the Assignor has not executed and will not execute any agreement in conflict with this Assignment.

6. This Assignment is binding upon and inures to the benefit of the successors and assigns of the parties.

The Assignor and the Assignee hereby execute this Assignment.
