The undersigned:

1. **Thomas Joseph Hilton**
United States of America

(the "Inventor(s)"), desire to assign the entire right, title and interest in and to the Inventions and Assigned Patents (each, as defined below) to **A & H Enterprises, Inc.**, a corporation incorporated under the laws of the State of **Washington**, having a place of business at **11812 NE 116th St, Kirkland, Washington 98034** (the "Assignee"), and Assignee desires to acquire such right, title and interest, all on the terms and conditions set forth in this Patent Assignment.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by the Inventor(s) to have been received in full from the Assignee:

1. The Inventor(s) have invented certain new and useful inventions and improvements disclosed in the following patent(s) and patent applications(s):

HIGH PRESSURE VOLUMETRIC FLUID METERING DEVICE

for which a U.S. utility non-provisional patent application serial number 15/360,628 was filed on November 23, 2016 in the United States Patent and Trademark Office, claiming the benefit of U.S. utility provisional patent application serial number 62/259,441 (Filed on November 24, 2015);

(the "Listed Patent(s)"). As used herein: "Assigned Patents" means (a) the Listed Patent(s), (b) all Patents that share priority with or claim priority to or from the Listed Patent(s), including each and every Patent that is a divisional, substitution, continuation, continuation-in-part, non-provisional, or national phase application of any of the Listed Patent(s), (c) all Patents applied for on an invention disclosed within the Patents included in foregoing subclauses (a)-(b), (d) each and every Patent granting, issuing or reissuing from any of the foregoing under subclauses (a)-(c), (e) each and every reissue, reexamination, renewal or extension of any kind of any of the foregoing under subclauses (a)-(d), and (f) each and every Patent filed outside the United States and corresponding to any of the foregoing under subclauses (a)-(e). "Patents" means (i) patents, certifications of inventions, inventor's certificates and other forms of protection granted on any invention in the United States, foreign countries, or under any international convention, agreement, protocol or treaty, including those filed under the Paris Convention for the Protection of Industrial Property, The Patent Cooperation Treaty or otherwise, and (ii) applications therefor (whether provisional, converted provisional, utility, design, plant, utility model, non-provisional or otherwise).

2. The Inventor(s) do hereby sell, assign, transfer and convey unto the Assignee the entire right, title and interest (a) in and to the Assigned Patents, including the right to claim priority to and from the Assigned Patents; (b) in and to the inventions disclosed in the Assigned Patents, and in and to all embodiments of the inventions, heretofore conceived, made or discovered, whether jointly or severally, by the Inventor(s) (the "Inventions") and (c) in and to all claims for past, present and future infringement of the Assigned Patents, including all rights to sue for and to receive and recover for Assignee's own use all past, present, and future lost profits, royalties, and damages of whatever nature recoverable from an infringement of the Assigned Patents.

3. The Inventor(s) hereby covenant and agree to cooperate with the Assignee to enable the Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty. Such cooperation by the Inventor(s) shall include prompt production of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by the Assignee (a) for perfecting in the Assignee the right, title and interest herein conveyed; (b) for filing, prosecuting or maintaining any of the Assigned Patents; (c) for filing, prosecuting or maintaining applications for reissuance of any the Assigned Patents; (d) for interference or other priority proceedings involving the Assigned Patents or Inventions; and (e) for legal proceedings involving the Inventions or Assigned Patents, including without limitation reissues and reexaminations, IPRs, opposition and other post-grant proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that reasonable expenses incurred by the Inventor(s) in providing such cooperation shall be paid for by the Assignee.

4. The terms and covenants of this assignment shall inure to the benefit of the Assignee, its successors, assigns and other legal representatives, and shall be binding upon the Inventor(s), their respective heirs, legal representatives, and assigns.

5. The Inventor(s) hereby warrant, represent and covenant that the Inventor(s) have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

6. The Inventor(s) hereby request that any Assigned Patent(s) issuing or granting in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty, be issued or granted in the name of the Assignee, or its successors and assigns, for the sole use of the Assignee, its successors, legal representatives and assigns.

7. If any provision of this instrument is found to be illegal or unenforceable, the other provisions shall remain effective and enforceable to the greatest extent permitted by law. This instrument may be executed in counterparts, each of which is deemed an original, but all of which together constitute one and the same agreement.

IN WITNESS WHEREOF, the Inventor(s) have executed and delivered this instrument to the Assignee as of the dates written below:
